

the CPS will be available on respondents to the Supplement. Comparisons of volunteer activities will be possible across characteristics such as sex, race, age, and educational attainment of the respondent. It is intended that the Supplement will be conducted annually, if resources permit, in order to gauge changes in volunteerism.

II. Current Action

Office of Management and Budget clearance is being sought for the CPS Volunteer Supplement. The September 2006 instrument includes some revisions made since the September 2005 instrument. A follow-up question to the ones that determine volunteer status was added to probe for volunteering for religious organizations. A question was added to determine the main activity a volunteer performs for his main organization. Two questions were added to determine if individuals had attended public meetings or worked with neighbors to improve something, and how frequently these events occurred. The questions on volunteering abroad and those asked of people who no longer volunteer were dropped.

Type of Review: Reinstatement, with change, of a previously approved collection for which approval has expired.
