Civil Monetary Penalty Inflation Adjustment Rule

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Final rule.

SUMMARY: The U.S. Army Corps of Engineers (Corps) is issuing this final rule to adjust its civil monetary penalties (CMP) under the Rivers and Harbors Appropriation Act of 1922 (RHA), the Clean Water Act (CWA), and the National Fishing Enhancement Act (NFEA) to account for inflation.

DATES: This final rule is effective on August 3, 2023.

FOR FURTHER INFORMATION CONTACT: For the RHA portion, please contact Mr. Paul Clouse at 202–761–4709 or by email at Paul.D.Clouse@usace.army.mil, or for the CWA and NFEA portion, please contact Mr. Matt Wilson 202–761–5856 or by email at Matthew.S.Wilson@usace.army.mil or access the U.S. Army Corps of Engineers Regulatory Home Page at <https://www.usace.army.mil/Missions/Civil-Works/Regulatory-Program-and-Permits/>.

SUPPLEMENTARY INFORMATION: The Federal Civil Penalties Inflation Adjustment Act of 1990, Public Law 101–410, codified at 28 U.S.C. 2461, note, as amended, requires agencies to annually adjust the level of CMP for inflation to improve their effectiveness and maintain their deterrent effect, as required by the Federal Civil Penalties Adjustment Act Improvements Act of 2015, Public Law 114–74, sec. 701,

November 2, 2015 (“Inflation Adjustment Act”).

With this rule, the new statutory maximum penalty levels listed in Table 1 will apply to all statutory civil penalties assessed on or after the effective date of this rule. Table 1 shows the calculation of the 2023 annual inflation adjustment based on the guidance provided by the Office of Management and Budget (OMB) (see December 15, 2022, Memorandum for the Heads of Executive Departments and Agencies, Subject: Implementation of Penalty Inflation Adjustments for 2023, Pursuant to the Federal Civil Penalties Inflation Adjustment Act Improvements Act of 2015). The OMB provided to agencies the cost-of-living adjustment multiplier for 2023, based on the Consumer Price Index for All Urban Consumers (CPI-U) for the month of October 2022, not seasonally adjusted, which is 1.07745. Agencies are to adjust “the maximum civil monetary penalty or the range of minimum and maximum civil monetary penalties, as applicable, for each civil monetary penalty by the cost-of-living adjustment.” For 2023, agencies multiply each applicable penalty by the multiplier, 1.07745, and round to the nearest dollar. The multiplier should be applied to the most recent penalty amount, *i.e.*, the one that includes the 2022 annual inflation adjustment.

TABLE 1

Citation	Civil Monetary Penalty (CMP) amount established by law	2022 CMP amount in effect prior to this rulemaking	2022 Inflation adjustment multiplier	CMP Amount as of August 3, 2023
Rivers and Harbors Act of 1922 (33 U.S.C. 555).	\$2,500 per violation	\$6,270 per violation	1.07745	\$6,756 per violation.
CWA, 33 U.S.C. 1319(g)(2)(A)	\$10,000 per violation, with a maximum of \$25,000.	\$23,990 per violation, with a maximum of \$59,974.	1.07745	\$25,848 per violation, with a maximum of \$64,619.
CWA, 33 U.S.C. 1344(s)(4)	Maximum of \$25,000 per day for each violation.	Maximum of \$59,974 per day for each violation.	1.07745	Maximum of \$64,619 per day for each violation.
National Fishing Enhancement Act, 33 U.S.C. 2104(e).	Maximum of \$10,000 per violation	Maximum of \$26,269 per violation	1.07745	Maximum of \$28,304 per violation.

Section 4 of the Inflation Adjustment Act directs federal agencies to publish annual penalty inflation adjustments. In accordance with section 553 of the Administrative Procedures Act (APA), many rules are subject to notice and comment and are effective no earlier than 30 days after publication in the **Federal Register**. Section 4(b)(2) of the Inflation Adjustment Act further provides that each agency shall make the annual inflation adjustments “notwithstanding section 553” of the APA. According to the December 2022 OMB guidance issued to Federal agencies on the implementation of the

2023 annual adjustment, the phrase “notwithstanding section 553” means that, “the public procedure the APA generally requires—notice, an opportunity for comment, and a delay in effective date—is not required for agencies to issue regulations implementing the annual adjustment.” Consistent with the language of the Inflation Adjustment Act and OMB’s implementation guidance, this rule is not subject to notice and opportunity for public comment or a delay in effective date. This rule adjusts the value of current statutory civil penalties to reflect and keep pace with the levels

originally set by Congress when the statutes were enacted, as required by the Inflation Adjustment Act. This rule will apply prospectively to penalty assessments beginning on the effective date of this final rule.

Regulatory Procedures Plain Language

In compliance with the principles in the President’s Memorandum of June 1, 1998, regarding plain language, this preamble is written using plain language. The use of “we” in this notice refers to the Corps and the use of “you” refers to the reader. We have also used

the active voice, short sentences, and common everyday terms except for necessary technical terms.

Executive Order 12866, “Regulatory Planning and Review,” and Executive Order 13563, “Improving Regulation and Regulatory Review”

This rule is not designated a “significant regulatory action” under Executive Order 12866 and OMB determined this rule to not be significant. Moreover, this final rule makes nondiscretionary adjustments to existing civil monetary penalties in accordance with the Inflation Adjustment Act and OMB guidance. The Corps, therefore, did not consider alternatives and does not have the flexibility to alter the adjustments of the civil monetary penalty amounts as provided in this rule.

Public Law 96–511, “Paperwork Reduction Act” (44 U.S.C. Chapter 35)

The Department of Defense determined that provisions of the Paperwork Reduction Act of 1995, Public Law 104–13, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR part 1320, do not apply to this rule because there are no new or revised recordkeeping or reporting requirements. This action merely increases the level of statutory civil penalties that could be imposed in the context of a federal civil administrative enforcement action or civil judicial case for violations of Corps-administered statutes and implementing regulations.

Executive Order 13132, “Federalism”

Executive Order 13132 establishes certain requirements that an agency must meet when it promulgates a rule that imposes substantial direct requirement costs on State and local governments, preempts State law, or otherwise has Federalism implications. This final rule will not have a substantial effect on State and local governments.

Public Law 96–354, “Regulatory Flexibility Act” (5 U.S.C. Chapter 6)

The Assistant Secretary of the Army (Civil Works) certified that this rule is not subject to the Regulatory Flexibility Act (5 U.S.C. 601, *et seq.*) because it would not, if promulgated, have a significant economic impact on a substantial number of small entities. Because notice of proposed rulemaking and opportunity for comment are not required pursuant to 5 U.S.C. 553, or any other law, the analytical requirements of the Regulatory Flexibility Act are inapplicable. Therefore, the Regulatory Flexibility

Act, as amended, does not require the Corps of Engineers to prepare a regulatory flexibility analysis.

Unfunded Mandates Reform Act (2 U.S.C. Chapter 25)

Section 202 of the Unfunded Mandates Reform Act of 1995 (UMRA) (2 U.S.C. 1532) requires agencies to assess anticipated costs and benefits before issuing any rule the mandates of which require spending in any year of \$100 million in 1995 dollars, updated annually for inflation. This rule will not mandate any requirements for State, local, or tribal governments, nor will it affect private sector costs.

Public Law 104–113, “National Technology Transfer and Advancement Act (15 U.S.C. Chapter 7)

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104–113, (15 U.S.C. 272 note), directs us to use voluntary consensus standards in our regulatory activities, unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (*e.g.*, materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards bodies. The NTTAA directs us to provide Congress, through OMB, explanations when we decide not to use available and applicable voluntary consensus standards. This rule does not involve technical standards. Therefore, we did not consider the use of any voluntary consensus standards.

Executive Order 13045, “Protection of Children From Environmental Health Risks and Safety Risks”

Executive Order 13045 applies to any rule that: (1) is determined to be “economically significant” as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that we have reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, we must evaluate the environmental health or safety effects of the rule on children, and explain why the regulation is preferable to other potentially effective and reasonably feasible alternatives. This rule is not subject to this Executive Order because it is not economically significant as defined in Executive Order 12866. In addition, it does not concern an environmental or safety risk that we have reason to believe may have a disproportionate effect on children.

Executive Order 13175, “Consultation and Coordination With Indian Tribal Governments”

Executive Order 13175 requires agencies to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” The phrase “policies that have tribal implications” is defined in the Executive Order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and the Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes.” This rule does not have tribal implications. The rule imposes no new substantive obligations on tribal governments. Therefore, Executive Order 13175 does not apply to this rule.

Public Law 104–121, “Congressional Review Act,” (5 U.S.C. Chapter 8)

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. We will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This rule is not a “major rule” as defined by 5 U.S.C. 804(2).

Executive Order 12898, “Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations”

Executive Order 12898 requires that, to the greatest extent practicable and permitted by law, each Federal agency must make achieving environmental justice part of its mission. Executive Order 12898 provides that each Federal agency conduct its programs, policies, and activities that substantially affect human health or the environment in a manner that ensures that such programs, policies, and activities do not have the effect of excluding persons (including populations) from participation in, denying persons (including populations) the benefits of, or subjecting persons (including populations) to discrimination under such programs, policies, and activities

because of their race, color, or national origin. This rule merely adjusts civil penalties to account for inflation, and therefore, is not expected to negatively impact any community, and therefore is not expected to cause any disproportionately high and adverse impacts to minority or low-income communities.

Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use”

This rule is not a “significant energy action” as defined in Executive Order 13211 because it is not likely to have a significant adverse effect on the supply, distribution, or use of energy.

BILLING CODE 3720–58–P

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 38

RIN 2900–AR80

Persons Eligible for Burial

AGENCY: Department of Veterans Affairs.
ACTION: Final rule.

SUMMARY: The Department of Veterans Affairs (VA) is revising its regulations regarding persons eligible for interment in a national cemetery, documentation associated with requests for interment, and eligibility for headstones or markers to implement new authorities provided in the National Defense Authorization

Act for Fiscal Year 2022 (NDAA FY22). Section 6601 of NDAA FY22 expanded eligibility for interment in national cemeteries to include certain individuals who served with a special guerrilla unit or irregular forces operating from a base in Laos in support of the Armed Forces during a specified time period. VA is amending its regulations to reflect this expanded eligibility.

DATES: This rule is effective September 5, 2023.

FOR FURTHER INFORMATION CONTACT: Daniel Catron, Supervisory Program Analyst, National Cemetery Administration, 41B2, Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420. Telephone: (314) 416–6324. (This is not a toll-free telephone number.)

SUPPLEMENTARY INFORMATION: On February 16, 2023, VA published a

proposed rule in the **Federal Register** (88 FR 10065) that proposed to revise VA regulations regarding persons eligible for interment in a national cemetery, documentation associated with requests for interment, and eligibility for headstones or markers. The public comment period ended on April 17, 2023, and VA received six comments in response to the proposed rule.

Technical Correction

During the final rule drafting process, VA noted an inaccuracy in proposed 38 CFR 38.619(a)(2)(i)(A), which we corrected in this final rule. In the proposed rule, we drafted the last sentence of the paragraph to read: “VA will retrieve naturalization records from the U.S. Citizenship and Immigration Services to verify that the naturalization was pursuant to section 2(1) of the Act.” We clarify that VA verifies
