

is "more in balance with deliverable supplies" for the live cattle futures contract. In particular, the Exchange states that deliverable supplies of live cattle meeting the futures contract's existing weight specifications have been adversely impacted by the "significant increase in slaughter weights of cattle in the U.S." As a result, "a growing proportion of the U.S. fed steer population is rapidly becoming ineligible for delivery against the Live Cattle contract." In this regard, the futures contract does not permit the delivery on a live-graded basis of individual steers weighing more than 1,350 pounds (or 1,375 pounds effective with the June 2003 contract month). However, the average carcass weight for steers has increased steadily in recent years, and in August 2002 was 837 pounds, for a live-weight equivalent of 1,329 pounds.

The Exchange has proposed to implement the subject proposed amendments only for existing contracts, beginning with the December 2002 contract month through the October 2003 contract month. The Exchange has separately notified the Commission that it will delay listing of the December 2003 contract month, pending its consideration of additional contract changes. In this regard, the Exchange notes that it is contemplating amendments that will increase the weight specifications for the live cattle futures contract to accommodate the higher observed weights in the cash market and will make additional amendments to the spot-month speculative position limits.

The Division is requesting comment on the proposal. Copies of the Exchange's proposed amendments will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street, NW., Washington, DC 20581. Copies of the proposed amendments can also be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 418-5100.

Other materials submitted by the CME in support of the request for approval may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations there under (17 CFR part 145 (2000)), except to the extent they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Act Compliance Staff of the Office of Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views, or arguments pertaining to the proposed amendments or with respect to other materials submitted by the CME should send such comments to Jean A. Webb, Secretary, Commodity Futures Trading Commission, Three Lafayette Centre 1155 21st Street, NW., Washington, DC 20581 by the specified date.

Issued in Washington, DC on October 24, 2002.

Michael Gorham,
Director.
