

requesting that OMB extend its approval for another three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that approximately 70 plans will terminate as distress or PBGC-initiated terminations each year. PBGC further estimates that two participants or other affected parties of every nine distress terminations or PBGC-initiated terminations filed will annually make requests for termination information, or $\frac{2}{9}$ of 70 (approximately 16 plans per year). PBGC estimates that the hour burden for each request will be about 20 hours. The total annual hour burden is estimated to be 320 hours (16 plans \times 20 hours). PBGC expects that the staff of plan administrators and sponsors will perform the work in-house and that no work will be contracted to third parties. Therefore, the annual cost burden is estimated to be \$0.
