

February and March; in the headwater, the restricted period is mid-April to mid-June.

- Active construction areas are to be cordoned off to protect the general public. This would include the west bank above the existing boat basin and localized areas on the river and reservoir during active construction of in-water features.
 - Escort tugs will be required during active construction of the lock guidewalls and approach dredging to protect both construction crews and traffic entering/exiting the lock.
 - Conducting in-stream activities during low-flow periods, where applicable.
 - Visual turbidity monitoring during in-stream activities.
 - Use of a weighted silt curtain during construction of the expanded west bank boat basin.
 - Use of rock with minimal fines for construction of in-stream structures, such as dikes and jetties.
 - Relocation of abundant mussel resources where they occur at in-water construction sites.
 - Notification of Kentucky Department of Fish and Wildlife Resources during blasting activities for monitoring potential fish kills.
 - Proper control of fugitive dust and tracking of sediment onto public roads.
 - Compliance with solid waste regulations for disposal of demolition and construction-related wastes.
 - If cultural resources are encountered, work is to stop until the site is investigated by a qualified archaeologist. The existing "protective" layer of fill at archaeological site 15Lv12 will not be modified. The berm separating site 15Lv12 from the Vulcan Disposal Area Haul Road also is to remain undisturbed.
 - Stabilization of all disturbed areas after construction including use of native plants where areas are not to be mowed or manicured.
 - Wetland mitigation for the entire Lock Addition Project, including the 0.11 acres associated with the Vulcan Disposal Area Haul Road, will be completed at a site in Benton, Kentucky. The wetland mitigation site will be monitored to ensure successful restoration of the hydrology and the establishment of wetland vegetation.
 - Restoration of the Livingston County Trail System after construction use of the Vulcan Disposal Area Haul Road.
- Further, as stated in the USACE's ROD: "Compliance with applicable environmental review and consultation requirements has been accomplished through the development of the FSEIS.

The FSEIS documents consideration and compliance with the Clean Water Act; the Endangered Species Act; the National Environmental Policy Act; the National Historic Preservation Act; Executive Order 11988 (Floodplain Management); Executive Order 12898 (Environmental Justice); Executive Order 11990 (Protection of Wetlands); Section 504 of the Rehabilitation Act of 1973 and the Architectural Barriers Act of 1968, and other applicable environmental protection statutes, regulations, and orders. * * *

Federal Aviation Administration

Agency Information Collection Activity Under OMB Review

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for extension of the currently approved collection. The ICR describes the nature of the information collection and the expected burden. The Federal Register Notice with a 60-day comment period soliciting comments on the following

collection of information was published on June 12, 2002, page 40373.

DATES: Comments must be submitted on or before October 7, 2002. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT: Judy Street on (202) 267-9895.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

Title: Financial Responsibility Requirements for Licensed Launch Activities.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 2120-0649.

Form(s): NA.

Affected Public: A total of 5 businesses conducting reentry operations.

Abstract: Information to be collected supports the FAA in determining the amount of required liability insurance for a reentry operator after examining the risk associated with a reentry vehicle, its operational capabilities, and its designed reentry site. The information allows AST to preempt and conflicting or inconsistent requirements in any agreement the licensee may have previously entered into with other agencies of the United States concerning access to or use of United States launch property or launch services.

Estimated Annual Burden Hours: An estimated 1305 hours annually.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention FAA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on August 28, 2002.

Judith D. Street,

FAA Information Collection Clearance Officer, Standards and Information Division, APF-100.
