Black Hills National Forest Advisory Board

AGENCY: USDA Forest Service.

ACTION: Notice of intent to re-establish the Black Hills National Forest Advisory Board and call for nominations.

SUMMARY: The U.S. Department of Agriculture, Forest Service intends to re-establish the Black Hills National Forest Advisory Board (Board). The purpose is to obtain advice and recommendations on a broad range of forest issues such as forest plan revisions or amendments, forest health

including fire management and mountain pine beetle infestations, travel management, forest monitoring and evaluation, recreation fees, and site-specific projects having forest wide implications. The Forest Service is also seeking nominations for individuals to be considered as committee members. The public is invited to submit nominations for membership.

DATES: Written nominations must be received by March 15, 2012. Instructions for submitting a nomination package may be found in the section below entitled, "Advisory Committee Organization".

ADDRESSES: Send nominations and applications to Frances Reynolds, USDA Forest Service, Rocky Mountain Region, 720 Simms Street Golden, Colorado 80401.

FOR FURTHER INFORMATION CONTACT:

Craig Bobzien, Forest Supervisor, USDA, Forest Service, Rocky Mountain Region, telephone: 605-673-9201, fax: 605-673-9208, or email: cbobzien@fs.fed.us. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: USDA 16565-Black Hills National Forest Advisory Board is a non-scientific program advisory Board established by the Secretary of Agriculture in 2003 to provide advice and counsel to the U. S. Forest Service, Black Hills National Forest, in the wake of increasingly severe and intense wild fires and mountain pine beetle epidemics.

The purpose of the Board is to provide advice and recommendations on a broad range of forest issues such as forest plan revisions or amendments, travel management, forest monitoring and evaluation, and site-specific projects having forest-wide implications. The Board also serves to meet the needs of the Recreation Enhancement Act of 2005 as a recreation resource advisory board (RRAC) for the Black Hills of South Dakota. The Board provides timely advice and recommendations to the Secretary through the forest supervisor regarding programmatic forest issues and project-level issues that have forest-wide implications for the Black Hills National Forest.

The Board meets approximately ten times a year, with one month being a field trip, held in August and focusing on both current issues and the educational value of seeing management

strategies and outcomes on the ground. This Board has been established as a truly credible entity and a trusted voice on forest management issues and is doing often astonishing work in helping to develop informed consent for forest management.

For years, the demands made on the Black Hills National Forest have resulted in conflicts among interest groups resulting in both forest-wide and site-specific programs being delayed due to appeals and litigation. The Board provides a forum to resolve these issues to allow for the Black Hills National Forest to move forward in its management activities. The Board is believed to be one of the few groups with broad enough scope to address all of the issues and include all of the jurisdictional boundaries.

Significant Contributions

The Board's most significant accomplishments include:

1. A 2004 report on the Black Hills Fuels Reduction Plan, a priority following the major fires including the 86,000 acre Jasper Fire in 2000;
2. A 2004 initial Off-Highway Vehicle Travel Management Subcommittee report;
3. A report on their findings regarding the thesis, direction, and assumptions of Phase II of our Forest Plan produced in 2005;
4. The Invasive Species Subcommittee Report in 2005 covering recommendations to better stop invasive species from infiltrating the Forest;
5. A final Travel Management Subcommittee Report in 2006 in which the Board made 11 recommendations regarding characteristics of a designated motor vehicle trail system, the basis for our initial work to prepare our Motor Vehicle Use Map in 2010-2011;
6. The Board's annual work to attract funding through grants based on the Collaborative Landscape Forest Restoration Program (CFLRP), a program of the Secretary of Agriculture *CFLR Program* to encourage the collaborative, science-based ecosystem restoration of priority forest landscapes;
7. A letter to the Secretary and the Chief of the Forest Service to work, restore and maintain open space for wildlife habitat and recreation needs like snowmobile trails; and
8. The annual reports to the Secretary detailing the Board's activities, issues, and accomplishments.

The Board is deemed to be among the most effective public involvement strategies in the Forest Service and continues to lead by example for Federal, State, and local government agencies working to coordinate and

cooperate in the Black Hills of South Dakota and Wyoming.
