

comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Collection of Research Code Non-Disclosure Agreement Information.

2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.

3. *Type of submission:* New.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* As needed.

6. *Who will be required or asked to respond:* Domestic and foreign users of NRC's nuclear safety analytical computer codes.

7. *The estimated number of annual responses:* 640.

8. *The estimated number of annual respondents:* 640.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 640 hours.

10. *Abstract:* This information collection request is a non-disclosure agreement (NDA) used for domestic and foreign entities to obtain and use the U.S. Nuclear Regulatory Commission's (NRC's) nuclear safety analytical computer codes. NRC develops and uses computer codes to independently model and evaluate safety issues associated with the licensed use of radioactive materials. As a global leader in nuclear regulatory research and safety assessment, NRC is frequently approached by domestic and

international organizations requesting copies of NRC computer codes. In general, to obtain an NRC code an individual or organization first agrees to not redistribute the code (*i.e.*, non-disclosure) through a non-disclosure agreement (NDA). The NDA also imposes terms and conditions for code use, and requires notification to NRC of code errors, code modifications, and updated user information. An officially signed and executed NDA of users agreeing to the terms and conditions is current NRC practice for access to NRC-developed computer codes. Once the NDA has been signed, received, reviewed, and accepted, the requesting individual or organization is given access to the requested code. The information collection enables the NRC to ensure that proper procedures and agreements are in place to guide the distribution and use of these codes according to NRC and U.S. Government policies and international agreements such as import-export restrictions and intellectual property rights. Further information collection on code errors and modifications by code users permits NRC to maintain control and quality of its codes in a timely and efficient manner.

Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated at Rockville, Maryland, this 11th day of April 2019.

For the Nuclear Regulatory Commission.

David Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.
