

informed consent and event questionnaires. In addition, biologic sampling at equine events will be available to selected Phase II participants.

The information collected through the NAHMS Equine 2026 Study will be analyzed and organized into descriptive reports. Several information sheets will be derived from these reports and disseminated by NAHMS to owner/operators, stakeholders, academia, veterinarians, and other interested parties. The collected data will be used to: (1) Establish national and regional estimates for equine health and management for owner/operator, veterinary, and industry references; (2) predict or detect national and regional trends in disease emergence and movement; (3) address emerging issues; (4) aid in disease preparedness; (5) provide estimates of both outcome (disease or other parameters) and exposure (risks and components) variables that can be used in analytic studies in the future by NAHMS; (6) provide input into the design of surveillance systems for specific diseases; and (7) provide parameters for animal disease spread models.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.4436 hours per response.

Respondents: Phase I: Equine owner/operators on operations with 5 or more equids in all 50 States. Phase II: Equine event representatives and equine event participants in 30 States.³

Estimated annual number of respondents: 6,545.

Estimated annual number of responses per respondent: 3.

Estimated annual number of responses: 16,832.

Estimated total annual burden on respondents: 7,466 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of February 2025.

Administrator, Animal and Plant Health Inspection Service.

Paper File Folders From Cambodia and Sri Lanka: Postponement of Preliminary Determinations in the Less-Than-Fair-Value Investigations

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable February 24, 2025.

FOR FURTHER INFORMATION CONTACT:
Kelsie Hohenberger (Cambodia) or

Rachel Jennings (Sri Lanka), AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–2517 or (202) 482–1110, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 12, 2024, the U.S. Department of Commerce (Commerce) initiated less-than-fair-value (LTFV) investigations of imports of paper file folders from Cambodia and Sri Lanka.¹ Currently, the preliminary determinations of these investigations are due no later than April 1, 2025.

Postponement of Preliminary Determinations

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in an LTFV investigation within 140 days after the date on which Commerce initiated the investigation. However, section 733(c)(1)(A)(b)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 190 days after the date on which Commerce initiated the investigation if: (A) the petitioner makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.

On February 11, 2025, the petitioner² submitted a timely request that Commerce postpone the preliminary determinations in these LTFV investigations.³ The petitioner stated that it requests postponement because additional time will allow Commerce to fully evaluate the initial questionnaire responses submitted by the mandatory respondents and issue supplemental
