Indian Health Service

Notice of Re-Designation of the Service Delivery Area for the Cowlitz Indian Tribe

AGENCY: Indian Health Service.

ACTION: Notice.

SUMMARY: This Notice advises the public that the Indian Health Service (IHS) proposes to expand the geographic boundaries of the Service Delivery Area (SDA) for the Cowlitz Indian Tribe. The Cowlitz SDA currently is comprised of Clark, Cowlitz, King, Lewis, Pierce, Skamania, and Thurston in the State of Washington. These counties were designated as the Tribe's SDA in 67 FR 46329. It is proposed that Columbia County, Oregon, and Wahkiakum and Kittitas Counties, Washington be added to the existing SDA.

DATES: This notice is effective 30 days after date of publication in the **Federal Register**.

ADDRESSES: Comments may be mailed to Betty Gould, Regulations Officer, Indian Health Service, Suite 450, 12300 Twinbrook Parkway, Rockville, Maryland 20852. Comments will be made available for public inspection at this address from 8:30 a.m. to 5:00 p.m. Monday–Friday beginning approximately 2 weeks after publication of this notice.

FOR FURTHER INFORMATION CONTACT: Carl Harper, Director, Office of Resource Access and Partnerships, Indian Health Service, Suite 360, 12300 Twinbrook Parkway, Rockville, Maryland 20852. Telephone 301/443-2694 (This is not a toll free number).

SUPPLEMENTARY INFORMATION: The IHS currently provides services under regulations in effect on September 15, 1987 and IHS republished at 42 CFR part 136, subparts A–C. Subpart C defines a Contract Health Service Delivery Area (CHSDA) as the geographic area within which CHS will

be made available by the IHS to members of an identified Indian community who reside in the area. Residence with a CHSDA or SDA by a person who is within the scope of the Indian health program, as set forth in 42 CFR 136.12, creates no legal entitlement to contract health services but only potential eligibility for services. Services needed but not available at a IHS/Tribal facility are provided under the CHS program depending on the availability of funds, the person's relative medical priority, and the actual availability and accessibility of alternate resources in accordance with the regulations.

As applicable to the Tribes, these regulations provide that, unless otherwise designated, a CHSDA shall consist of a county which includes all or part of a reservation and any county or counties which have a common boundary with the reservation (42 CFR 136.22(a)(6) (2007)). The regulations also provide that after consultation with the Tribal governing body or bodies of those reservations included in the CHSDA, the Secretary may, from time to time, re-designate areas within the United States for inclusion in or exclusion from a CHSDA. The regulations require that certain criteria must be considered before any re-designation is made. The criteria are as follows:

(1) The number of Indians residing in the area proposed to be so included or excluded;

(2) Whether the Tribal governing body has determined that Indians residing in the area near the reservation are socially and economically affiliated with the Tribes;

(3) The geographic proximity to the reservation of the area whose inclusion or exclusion is being considered; and

(4) The level of funding which would be available for the provision of contract health services.

Additionally, the regulations require that any re-designation of a CHSDA must be made in accordance with the Administrative Procedures Act (5 U.S.C. 553). In compliance with this requirement, we are publishing this proposal and requesting public comment.

The purpose of this FR notice is to notify the public of the request of the Cowlitz Indian Tribe to expand their SDA as presented in their 08–3 Tribal resolution dated January 5, 2008, and 08–56 Tribal resolution, dated December 06, 2008. The Tribe's request will expand their current SDA which incorporates Cowlitz, Clark, Skamania, King, Pierce, Thurston and Lewis Counties in the State of Washington, to

include Columbia County in the State of Oregon, and Kittitas and Wahkiakum Counties in the State of Washington.

Under 42 CFR 136.23 those otherwise eligible Indians who do not reside on a reservation but reside within a CHSDA must be either members of the Tribe or maintain close economic and social ties with the Tribe. In this case, the Tribe estimates the current eligible population will be increased by 35 individuals' enrolled Cowlitz members who are actively involved with the Tribe, but not eligible for health services.

In applying the aforementioned CHSDA re-designation criteria required by operative regulations (43 FR 35654), the following findings are made:

1. Columbia County, Oregon is contiguous with Clark County in the state of Washington. Kittitas County is contiguous to King County and Wahkiakum County is contiguous to Lewis in the State of Washington.

2. These three counties are not part of any other Tribes CHSDA.

3. It is important for the Cowlitz Indian Tribe to be able to deliver health care services to enrolled members residing in these three counties. The Tribe believes eligible Tribal members living in the counties proposed for expansion should also be eligible for CHS.

4. Most of the 35 Tribal members use the Cowlitz Clinic in Longview, Washington for their health care needs. It is estimated that members have a 40 minute drive to receive their health care. These Tribal members do not currently receive care under the CHS program.

5. The financial resources required to meet the immediate needs of the Tribal members residing in the three counties will not be substantial as the Tribe will use existing Federal allocations for contract health funds.

Since CHS is a critical component of the Tribes' overall health care system for its members, the Tribe feels that the members residing in the three counties should be included within the SDA for the Tribe.

Accordingly, after considering the Tribes' request in light of the criteria specified in the regulations, the IHS is proposing to re-designate the SDA for the Tribe to consist of Columbia County in the State of Oregon and Kittitas and Wahkiakum Counties in the State of Washington.

This notice does not contain reporting or recordkeeping requirements subject to prior approval by the Office of Management and Budget under the Paperwork Reduction Act of 1980.

National Institute of Environmental Health Sciences: Superfund Research Program; Request for Information (NOT-ES-10-003): Superfund Research Program Strategic Planning

AGENCY: National Institute of Environmental Health Sciences (NIEHS), National Institutes of Health (NIH), HHS.

ACTION: Request for information.

SUMMARY: The NIEHS Superfund Research Program (SRP), in response to recommendations of the NIEHS Superfund Research Program External Advisory Panel convened in 2009, is seeking input to develop a strategic plan to provide direction to achieve its mandates described in SARA Section 311(a). Information provided will be used to develop a 5-year strategic plan to direct programmatic focus and enhance the impact of the SRP program. SRP welcomes input from sister Superfund agency representatives (*i.e.* United States Environmental Protection Agency, US EPA; and Agency for Toxic Substances and Disease Registry, ATSDR), other government officials, environmental health researchers, academics, members of the private sector, policy makers, the lay public, and others with an interest in the effects of hazardous substances on public health. SRP is using an online questionnaire and public meetings to receive input.

DATES: Please respond online at the Superfund Research Program Strategic Planning web page by January 29, 2010, at <http://www.niehs.nih.gov/SRP/strategicplan>. Meeting dates and locations, when available, will be listed at the same Web page.

SUPPLEMENTARY INFORMATION:

Information Requested

The SRP requests input on the following:

1. Respondent Affiliation: University—SRP-funded (current or past grantee); University—not SRP-funded, US EPA (office/division); ATSDR; Other Federal Government; State/Local Government; Industry; Small Business; Not-for-Profit; General Public; Other.

2. Respondent Additional Contact Information: e-mail, address, phone.

Scope of Science. Part of the SRP strategic planning process is to identify ways to prioritize programmatic direction and to achieve balance given the many competing demands for research on hazardous substances. Respondents may wish to consider: potential for exposure; contaminant recalcitrance; elucidating new toxicity modalities; balance between: hazardous waste & hazardous substances, basic & applied research; emerging & established contaminants, human health & ecological health.

3. Given the breadth of Program mandates, what prioritization criteria should SRP use to guide inclusion of themes and issues to achieve Program balance? Provide specific examples as necessary.

Interdisciplinary Research. To address the complexity of environmental health issues, SRP endorses interdisciplinary research, or, interactions between researchers from a wide range of disciplines relevant to Program mandates.

4. What approaches (research or otherwise) will mostly effectively foster interdisciplinary interactions?

Training. To fulfill SARA mandates, SRP supports graduate training within funded grants. Given the interdisciplinary context of SRP, graduate trainees are exposed to multiple disciplines and, therefore, are

well positioned to meet the complex challenges in environmental health as well as mitigation and management of hazardous substances.

5. What approaches or activities should SRP consider to enhance the impact of graduate training?

Identifying Stakeholders. SRP defines "stakeholders" as individuals, groups, or organizations likely to benefit from the SRP. In order to maximize the impact of program science, it is important to know the SRP stakeholders and how to reach them.

6. Who are SRP's stakeholders and what approaches or mechanisms can SRP use to most effectively interact with them?

Research Translation. Research translation is a concerted effort to ensure research is accessible to end-users. SRP supports research translation activities with the goal of accelerating the useful application of SRP science advances. Respondents may wish to consider how the program can accelerate research translation through: effective methods of communication, data sharing, technology transfer, etc...

7. What are the best ways for SRP to achieve its goal of accelerating research translation?

Community Engagement. Community outreach has been a long tradition of the SRP. SRP seeks input to most appropriately focus its community involvement, given the context of a grant program mandated to address hazardous substances. Respondents may wish to consider: which communities to target, what the community needs, what approach is most effective, how to engage communities, etc...

8. What approaches to community engagement are most appropriate for SRP?

9. What disciplines are needed to make the greatest impact in community engagement? Grant Mechanisms. As a university-based grant program, SRP has flexibility to offer a number of grant mechanisms. Grant mechanisms specify the structure of the research team (such as single-project, multi-project), the size of the teams, the disciplines represented, etc. Please consider the following question from this perspective.
