Organophosphate Pesticide; Availability of Preliminary Risk Assessments**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: This notice announces the availability of documents that were developed as part of the EPA's process for making reregistration eligibility decisions for the organophosphate pesticides and for tolerance reassessments consistent with the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act of 1996 (FQPA). These documents are the preliminary dichlorvos (DDVP) risk assessments and related documents for dichlorvos (DDVP). This notice also starts a 60-day public comment period for the preliminary risk assessments. Comments are to be limited to issues directly associated with the dichlorvos (DDVP) organophosphates pesticides that have risk assessments placed in the docket and should be limited to issues raised in those documents. By allowing access and opportunity for comment on the preliminary risk assessments, EPA is seeking to strengthen stakeholder involvement and help ensure our decisions under FQPA are transparent and based on the best available information. The tolerance reassessment process will ensure that the United States continues to have the safest and most abundant food supply. The Agency cautions that these risk assessments are preliminary assessments only and that further refinements of the risk assessments will be appropriate for some, if not all, of these dichlorvos (DDVP) organophosphate pesticides. These documents reflect only the work and analysis conducted as of the time
