

require a site-specific analysis of habitat values in order to determine specific mitigation obligations.

The Reduced Development Alternative would result in reduced development of the Metro Air Park site. The 18-hole golf course situated on approximately 279 acres would be reduced to a 140-acre 9-hole golf course. This would reallocate 140 acres on-site for the creation of habitat as a mitigation area for covered species.

The analysis provided in the Draft Environmental Impact Statement is intended to accomplish the following: inform the public of the proposed action and alternatives; address public comments received during the scoping period; disclose the direct, indirect, and cumulative environmental effects of the proposed action and each of the alternatives; and indicate any irreversible commitment of resources that would result from implementation of the proposed action.

The Service invites the public to comment on the Plan and Draft Environmental Impact Statement during a 60-day public comment period. This notice is provided pursuant to section 10(a) of the Endangered Species Act and Service regulations for implementing the National Environmental Policy Act of 1969 (40 CFR 1506.6). The Service will evaluate the application, associated documents, and comments submitted thereon to prepare a Final Environmental Impact Statement. A permit decision will be made no sooner than 30 days after the publication of the Final Environmental Impact Statement.
