• Send an email to *rule-comments@sec.gov.* Please include File Number SR–DTC–2019–008 on the subject line.

Paper Comments

• Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549.

All submissions should refer to File Number SR–DTC–2019–008. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of DTC and on DTCC's website (*http://dtcc.com/legal/sec-rule-filings.aspx*). All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–DTC–2019–008 and should be submitted on or before November 20,2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[24]

Eduardo A. Aleman,

Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–87394; File No. SR–FICC–2019–005]

Self-Regulatory Organizations; Fixed Income Clearing Corporation; Notice of Filing of Proposed Rule Change To Require Confirmation of Cybersecurity Program

October 24, 2019.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'')[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on October 15, 2019, Fixed Income Clearing Corporation (''FICC'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II and III below, which Items have been prepared by the clearing agency. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change consists of modifications to FICC's Government Securities Division (''GSD'') Rulebook (''GSD Rules''), FICC's Mortgage-Backed Securities Division (''MBSD'') Clearing Rules (''MBSD Rules''), and the Electronic Pool Notification (''EPN'') Rules of MBSD (''EPN Rules,'' and, together with the GSD Rules and the MBSD Rules, the ''Rules'')[3] in order to (1) define ''Cybersecurity Confirmation'' as a signed, written representation that addresses the submitting firm's cybersecurity program; and (2) enhance the GSD and MBSD application requirements and ongoing requirements for Members to (a) require that a Cybersecurity Confirmation be provided as part of the application materials for all Members, and (b) require that all Members deliver to FICC a complete, updated Cybersecurity Confirmation at least every two years, as described in greater detail below.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] Capitalized terms not defined herein are defined in the Rules, *available at http://www.dtcc.com/legal/rules-and-procedures.* References to ''Members'' in this filing include the participants of GSD and MBSD, including GSD Netting Members, GSD Comparison-Only Members, GSD Sponsoring Members, GSD CCIT Members, GSD Funds-Only Settling Bank Members, MBSD Clearing Members, MBSD Cash Settling Bank Members, and MBSD EPN Users, as such terms are defined in the respective Rules.

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the clearing agency included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The clearing agency has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

(A) Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

(i) Overview

FICC is proposing to modify the Rules in order to (1) define ''Cybersecurity Confirmation'' as a signed, written representation that addresses the submitting firm's cybersecurity program; and (2) enhance the GSD and MBSD application requirements and ongoing requirements for Members to (a) require that a Cybersecurity Confirmation be provided as part of the application materials for all Members, and (b) require that all Members deliver to FICC a complete, updated Cybersecurity Confirmation at least every two years.

The proposed change would require all Members and applicants to deliver to FICC a signed, written Cybersecurity Confirmation, which includes representations regarding the submitting firm's cybersecurity program and framework. The Cybersecurity Confirmation would be required to be (1) delivered with the application materials for every applicant, and (2) updated and re-delivered at least every two years by all Members.

As described in more detail below, the Cybersecurity Confirmation would help FICC to assess the cybersecurity risks that may be introduced to it by Members that connect to FICC either through the Securely Managed and Reliable Technology (''SMART'') network[4] or through other connections. The proposed Cybersecurity Confirmation would allow FICC to

[4] The SMART network is a technology managed by FICC's parent company, The Depository Trust & Clearing Corporation (''DTCC''), that connects a nationwide complex of networks, processing centers and control facilities. This network extends between FICC's and its Members' operating premises. DTCC operates on a shared services model with respect to FICC and DTCC's other subsidiaries pursuant to intercompany agreements under which it is generally DTCC that provides a relevant service to its subsidiaries, including FICC.

better understand its Members' cybersecurity programs and frameworks and identify possible cybersecurity risk exposures. Based on this information, FICC would be able to establish appropriate controls to mitigate these risks and their possible impacts to FICC's operations.

(ii) Background of Proposal

FICC believes it is prudent to better understand the cybersecurity risks that it may face through its interconnections to Members. As a designated systemically important financial market utility, or ''SIFMU,'' FICC occupies a unique position in the marketplace such that a failure or a disruption to FICC could increase the risk of significant liquidity problems spreading among financial institutions or markets and thereby threaten the stability of the financial system in the United States.[5] Given its designation as a SIFMU, FICC believes it is prudent to develop an enhanced endpoint security framework designed so that its SMART network or other connectivity is adequately protected against cyberattacks.

Currently, FICC does not obtain any information regarding the security of a firm's systems or cybersecurity program prior to permitting that firm to connect either directly to the SMART network or to FICC through another means, such as through a third party service provider, service bureau, network, or the internet. Given FICC's critical role in the marketplace, FICC is proposing to address the risks that could be posed by these connections.

Members may currently be subject to regulations that are designed, in part, to enhance the safeguards used by these entities to protect themselves against cyberattacks.[6] In order to comply with such regulations, Members and applicants would be required to follow standards established by national or international organizations focused on information security management, and would have already established protocols to allow their senior management to verify that they have sufficient cybersecurity programs in place to fulfill existing regulatory obligations. Other Members have established and follow substantially similar protocols because of evolving expectations by regulators or by institutional customers as to the sufficiency of their cyber safeguards. FICC believes that it should require confirmation of the cybersecurity standards utilized by its Members and applicants that connect to its network.

The proposed Cybersecurity Confirmation would require Members and applicants to represent that they have established adequate controls and security to help limit (1) cybersecurity risks to FICC and to the other Members' networks and (2) access by unauthorized third parties while the firm is connected to FICC either directly through the SMART network or through other connectivity such as a service provider, service bureau, network, or the internet.

(iii) Proposed Rule Changes

FICC is proposing to modify its Rules to (1) define ''Cybersecurity Confirmation;'' and (2) require that firms deliver a completed Cybersecurity Confirmation (a) as part of their initial application with FICC, and (b) on an ongoing basis, at least every two years. Each of these proposed rule changes is described in greater detail below.

(1) Proposed Cybersecurity Confirmation

FICC is proposing to adopt a definition of ''Cybersecurity Confirmation.'' Each Cybersecurity Confirmation would be required to be in writing on a form provided by FICC and signed by a designated senior executive of the submitting firm who is authorized to attest to these matters. Based on the form provided by FICC, each Cybersecurity Confirmation would contain representations regarding the submitting firm's cybersecurity program and framework. Such representations by the submitting firm would cover the two years prior to the date of the most recently provided Cybersecurity Confirmation.

FICC is proposing to require that the following representations be included in the form of Cybersecurity Confirmation:

First, the Cybersecurity Confirmation would include a representation that the submitting firm has defined and maintains a comprehensive cybersecurity program and framework that considers potential cyber threats that impact the organization and protects the confidentiality, integrity and availability requirements of its systems and information.

Second, the Cybersecurity Confirmation would include a representation that the submitting firm has implemented and maintains a written enterprise cybersecurity policy or policies approved by the submitting firm's senior management or board of directors, and the organization's cybersecurity framework is in alignment with standard industry best practices and guidelines.[7]

Third, the Cybersecurity Confirmation would include a representation that, if the submitting firm is using a third party service provider or service bureau(s) to connect or transact business or to manage the connection with FICC, the submitting firm has an appropriate program to (a) evaluate the cyber risks and impact of these third parties, and (b) review the third party assurance reports.

Fourth, the Cybersecurity Confirmation would include a representation that the submitting firm's cybersecurity program and framework protect the segment of their system that connects to and/or interacts with FICC.

Fifth, the Cybersecurity Confirmation would include a representation that the submitting firm has in place an established process to remediate cyber issues identified to fulfill the submitting firm's regulatory and/or statutory requirements.

Sixth, the Cybersecurity Confirmation would include a representation that the submitting firm's cybersecurity program's and framework's risk processes are updated periodically based on a risk assessment or changes to technology, business, threat ecosystem, and/or regulatory environment.

And, finally, the Cybersecurity Confirmation would include a representation that the review of the

[5] FICC and its affiliates, The Depository Trust Company and National Securities Clearing Corporation, were designated SIFMUs under Title VIII of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. 12 U.S.C. 5465(e)(1).

[6] For example, depending on the type of entity, Members may be subject to one or more of the following regulations: (1) Regulation S–ID, which requires ''financial institutions'' or ''creditors'' under the rule to adopt programs to identify and address the risk of identity theft of individuals (17 CFR 248.201–202); (2) Regulation S–P, which requires broker-dealers, investment companies, and investment advisers to adopt written policies and procedures that address administrative, technical, and physical safeguards for the protection of customer records and information (17 CFR 248.1–30); and (3) Rule 15c3–5 under the Act, known as the ''Market Access Rule,'' which requires broker-dealers to establish, document, and maintain a system for regularly reviewing the effectiveness of its management controls and supervisory procedures (17 CFR 240.15c3–5).

[7] Examples of recognized frameworks, guidelines and standards that FICC believes are adequate include the Financial Services Sector Coordinating Council Cybersecurity Profile, the National Institute of Standards and Technology Cybersecurity Framework (''NIST CSF''), International Organization for Standardization (''ISO'') standard 27001/27002 (''ISO 27001''), Federal Financial Institutions Examination Council (''FFIEC'') Cybersecurity Assessment Tool, Critical Security Controls Top 20, and Control Objectives for Information and Related Technologies. FICC would identify recognized frameworks, guidelines and standards in the form of Cybersecurity Confirmation and in an Important Notice that FICC would issue from time to time. FICC would also consider accepting other standards upon request by a Member or applicant.

submitting firm's cybersecurity program and framework has been conducted by one of the following: (1) The submitting firm, if it has filed and maintains a current Certification of Compliance with the Superintendent of the New York State Department of Financial Services confirming compliance with its Cybersecurity Requirements for Financial Services Companies; [8] (2) a regulator who assesses the program against an industry cybersecurity framework or industry standard, including those that are listed on the form of Cybersecurity Confirmation and in an Important Notice that is issued by FICC from time to time; [9] (3) an independent external entity with cybersecurity domain expertise in relevant industry standards and practices, including those that are listed on the form of Cybersecurity Confirmation and in an Important Notice that is issued by FICC from time to time; [10] or (4) an independent internal audit function reporting directly to the submitting firm's board of directors or designated board of directors committee, such that the findings of that review are shared with these governance bodies.

Together, the required representations are designed to provide FICC with evidence of each Member's or applicant's management of cybersecurity with respect to their connectivity to FICC. By requiring these representations from Members and applicants, the proposed Cybersecurity Confirmation would provide FICC with information that it could use to make decisions about risks or threats, perform additional monitoring, target potential vulnerabilities, and protect the FICC network.

FICC is proposing to amend Rule 1 (Definitions) of the GSD Rules, Rule 1 (Definitions) of the MBSD Rules, and Rule 1 (Definitions) of Article I (Definitions and General Provisions) of the EPN Rules, to include a definition of ''Cybersecurity Confirmation'' as described above.

(2) Initial and Ongoing Membership Requirement

FICC is proposing to require that a Cybersecurity Confirmation be submitted to FICC by any applicant, as part of their application materials, and at least every two years by all Members. With respect to the requirement to deliver a Cybersecurity Confirmation at least every two years, FICC would provide all Members with notice of the date on which such Cybersecurity Confirmations would be due no later than 180 calendar days prior to such due date.

In order to implement these proposed changes, FICC would amend Section 5 of Rule 2A (Initial Membership Requirements) of the GSD Rules, Section 3 of Rule 3B (Centrally Cleared Institutional Triparty Service) of the GSD Rules, Section 4 of Rule 13 (Funds-Only Settlement) of the GSD Rules, Section 3 of Rule 2A (Initial Membership Requirements) of the MBSD Rules, Rule 3A (Cash Settlement Bank Members) of the MBSD Rules, and Section 2 of Rule 1 (Requirements Applicable to EPN Users) of Article III of the EPN Rules to require that applicants complete and deliver a Cybersecurity Confirmation as part of their application materials.

Further, FICC would amend Section 2 of Rule 3 (Ongoing Membership Requirements) of the GSD Rules, Section 5 of Rule 3B (Centrally Cleared Institutional Triparty Service) of the GSD Rules, Section 4 of Rule 13 (Funds-Only Settlement) of the GSD Rules, Section 2 of Rule 3 (Ongoing Membership Requirements) of the MBSD Rules, Rule 3A (Cash Settlement Bank Members) of the MBSD Rules and Section 8 of Rule 1 (Requirements Applicable to EPN Users) of Article III of the EPN Rules to require each Member to complete and deliver a Cybersecurity Confirmation at least every two years, on a date that is set by FICC and following notice that is provided no later than 180 calendar days prior to such due date.

(iv) Implementation Timeframe

Subject to approval by the Commission, the proposed rule change would become effective immediately. The proposed requirement that applicants deliver a Cybersecurity Confirmation with their application materials would be implemented immediately and would apply to applications that have been submitted at that time but have not yet been approved or rejected. Following the effective date of the proposed rule change, FICC would provide Members with notice of the due date of their Cybersecurity Confirmations, no later than 180 days prior to such due date, and would provide such notice at least every two years going forward.

2. Statutory Basis

FICC believes the proposed rule changes are consistent with the requirements of the Act and the rules and regulations thereunder applicable to a registered clearing agency. In particular, FICC believes that the proposed rule changes are consistent with Section 17A(b)(3)(F) of the Act,[11] and Rules 17Ad–22(e)(17)(i) and (e)(17)(ii), each promulgated under the Act,[12] for the reasons described below.

Section 17A(b)(3)(F) of the Act requires that the rules of FICC be designed to, among other things, promote the prompt and accurate clearance and settlement of securities transactions and assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible.[13]

As described above, the proposed requirement that Members and applicants provide a Cybersecurity Confirmation regarding their cybersecurity program that includes the representations described above would provide FICC with evidence of each Member's or applicant's management of endpoint security with respect to the SMART network or other connectivity and would enhance the protection of FICC against cyberattacks. The proposed Cybersecurity Confirmation would provide FICC with information that it could use to make decisions about risks or threats, perform additional monitoring, target potential vulnerabilities, and protect the FICC network. The proposed Cybersecurity Confirmation would give FICC the ability to further identify its exposure and enable it to take steps to mitigate risks. These requirements would help reduce risk to FICC's network with respect to its communications with Members and their submission of instructions and transactions to FICC by requiring all Members connecting to

[8] 23 N.Y. Comp. Codes R. & Regs. tit. 23, § 500 (2017). This regulation requires firms to confirm that they have a comprehensive cybersecurity program, as described in the regulation, which FICC believes is sufficient to meet the objectives of the proposed Cybersecurity Confirmation.

[9] Industry cybersecurity frameworks and industry standards could include, for example, the Office of the Comptroller of the Currency or the FFIEC Cybersecurity Assessment Tool. FICC would identify acceptable industry cybersecurity frameworks and standards in the form of Cybersecurity Confirmation and in an Important Notice that FICC would issue from time to time. FICC would also consider accepting other industry cybersecurity frameworks and standards upon request by a Member or applicant.

[10] A third party with cybersecurity domain expertise is one that follows and understands industry standards, practices and regulations that are relevant to the financial sector. Examples of such standards and practices include ISO 27001 certification or NIST CSF assessment. FICC would identify acceptable industry standards and practices in the form of Cybersecurity Confirmation and in an Important Notice that FICC would issue from time to time. FICC would also consider accepting other industry standards and practices upon request by a Member or applicant.

[11] 15 U.S.C. 78q–1(b)(3)(F).

[12] 17 CFR 240.17Ad–22(e)(17)(i) and (e)(17)(ii).

[13] 15 U.S.C. 78q–1(b)(3)(F).

FICC to have appropriate cybersecurity programs in place.

Risks, threats and potential vulnerabilities could impact FICC's ability to clear and settle securities transactions, or to safeguard the securities and funds which are in its custody or control, or for which it is responsible. Therefore, by implementing a tool that would help to mitigate these risks, FICC believes the proposal would promote the prompt and accurate clearance and settlement of securities transactions and assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible, consistent with the requirements of Section 17A(b)(3)(F) of the Act.[14]

Rule 17Ad–22(e)(17)(i) under the Act requires that each covered clearing agency establish, implement, maintain and enforce written policies and procedures reasonably designed to manage the covered clearing agency's operational risks by identifying the plausible sources of operational risk, both internal and external, and mitigating their impact through the use of appropriate systems, policies, procedures, and controls.[15] The proposed Cybersecurity Confirmation would reduce cybersecurity risks to FICC by requiring all Members and applicants to confirm they have defined and maintain cybersecurity programs that meet standard industry best practices and guidelines. The proposed representations in the Cybersecurity Confirmations would help FICC to mitigate its exposure to cybersecurity risk and, thereby, decrease the operational risks to FICC that are presented by connections to FICC through the SMART network or otherwise. The proposed Cybersecurity Confirmations would identify to FICC potential sources of external operational risks and enable it to mitigate these risks and their possible impacts to FICC's operations. As a result, FICC believes the proposal is consistent with the requirements of Rule 17Ad–22(e)(17)(i) under the Act.[16]

Rule 17Ad–22(e)(17)(ii) under the Act requires that each covered clearing agency establish, implement, maintain and enforce written policies and procedures reasonably designed to manage the covered clearing agency's operational risks by ensuring, in part, that systems have a high degree of security, resiliency, and operational reliability.[17] The proposed Cybersecurity Confirmation would enhance the security, resiliency, and operational reliability of the endpoint security with respect to the SMART network or other connectivity because, as noted above, by making the Cybersecurity Confirmation an application requirement and an ongoing membership requirement, FICC would be able to prevent the connection by any applicant, and take action against any Member, that may pose an increased cyber risk to FICC by not having a defined and ongoing cybersecurity program that meets appropriate standards. Members or applicants that are not in alignment with a recognized framework, guideline, or standard that FICC believes is adequate to guide and assess such organization's cybersecurity program may present increased risk to FICC. By enabling FICC to identify these risks, the proposed changes would allow FICC to more effectively secure its environment against potential vulnerabilities. FICC's controls are strengthened when FICC's Members have similar technology risk management controls and programs within their computing environment. Control weaknesses within a Member's environment could allow for malicious or unauthorized usage of the link between FICC and the Member. As a result, FICC believes the proposal would improve FICC's ability to ensure that its systems have a high degree of security, resiliency, and operational reliability, and, as such, is consistent with the requirements of Rule 17Ad–22(e)(17)(ii) under the Act.[18]

(B) Clearing Agency's Statement on Burden on Competition

FICC believes the proposed rule change could have an impact on competition. Specifically, FICC believes that the proposed rule change could burden competition because it would require Members and applicants that do not already have cybersecurity programs that meet the standards set out in the Cybersecurity Confirmation to incur additional costs including, but not limited to, establishing a cybersecurity program and framework, engaging an internal audit function or appropriate third party to review that program and framework, and remediating any findings from such review. In addition, those Members and applicants that do not connect directly to the SMART network, but connect through a third party service provider or service bureau would have the additional burden of evaluating the cyber risks and impact of these third parties and reviewing the third party's assurance reports.

FICC believes the above described burden on competition that could be created by the proposed changes would be both necessary and appropriate in furtherance of the purposes of the Act, as permitted by Section 17A(b)(3)(I) of the Act, for the reasons described below.[19]

First, FICC believes the proposed rule change would be necessary in furtherance of the Act, specifically Section 17A(b)(3)(F) of the Act, because the Rules must be designed to promote the prompt and accurate clearance and settlement of securities transactions and assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible.[20] By requiring that Members and applicants provide a Cybersecurity Confirmation, the proposed rule change would allow FICC to better understand, assess, and, therefore, mitigate the cyber risks that FICC could face through its connections to its Members. As described above, these risks could impact FICC's ability to clear and settle securities transactions, or to safeguard the securities and funds which are in FICC's custody or control, or for which it is responsible. Implementing a tool as described above would help to mitigate these risks, and therefore FICC believes the proposal is necessary in furtherance of the requirements of Section 17A(b)(3)(F) of the Act.[21]

The proposed changes are also necessary in furtherance of the purposes of Rules 17Ad–22(e)(17)(i) and (e)(17)(ii) under the Act.[22] The proposed Cybersecurity Confirmations would identify to FICC potential sources of external operational risks and allow it to establish appropriate controls that would mitigate these risks and their possible impacts to FICC's operations. The proposed changes would also improve FICC's ability to ensure that its systems have a high degree of security, by enabling FICC to identify the cybersecurity risks that may be presented to it by Members that connect to FICC.

Second, FICC believes that the proposed rule change would be appropriate in furtherance of the purposes of the Act. The proposed rule change would apply equally to all Members and applicants. As described above, FICC believes Members may already be subject to one or more

[14] *Id.*

[15] 17 CFR 240.17Ad–22(e)(17)(i).

[16] *Id.*

[17] 17 CFR 240.17Ad–22(e)(17)(ii).

[18] *Id.*

[19] 15 U.S.C. 78q–1(b)(3)(I).

[20] 15 U.S.C. 78q–1(b)(3)(F).

[21] *Id.*

[22] 17 CFR 240.17Ad–22(e)(17)(i) and (e)(17)(ii).

regulatory requirements that include the implementation of a cybersecurity program, and these firms would already follow a widely recognized framework, guideline, or standard, to guide and assess their organization's cybersecurity program to comply with these regulations. Therefore, FICC believes any burden that may be imposed by the proposed rule change would be appropriate.

Further, while the proposed Cybersecurity Confirmation would identify certain standards and guidelines that would be appropriate, FICC would consider requests by applicants and Members to allow other standards in accepting a Cybersecurity Confirmation. Additionally, the proposed Cybersecurity Confirmation would provide differing options to conduct the review of the applicant's or Member's cybersecurity program. As such, FICC has endeavored to design the Cybersecurity Confirmation in a way that is reasonable and does not require one approach for meeting its requirements.

Finally, FICC is proposing to provide Members with a minimum of 180 calendar days' notice before the deadline for providing a Cybersecurity Confirmation. This notice would allow Members to address any impact this change may have on their business. Applicants would be required to provide the Cybersecurity Confirmation as part of their application materials upon the effective date of this proposed rule change. This implementation schedule is designed to be fair and not disproportionately impact any Members more than others. The proposal is designed to provide all impacted Members with time to review their cybersecurity programs with respect to the required representations, and identify, if necessary, internal or third party cybersecurity reviewers.

For the reasons described above, FICC believes any burden on competition that may result from the proposed rule change would be both necessary and appropriate in furtherance of the purposes of the Act, as permitted by Section 17A(b)(3)(I) of the Act.[23]

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

FICC has not solicited or received any written comments relating to this proposal. FICC will notify the Commission of any written comments received.

[23] 15 U.S.C. 78q–1(b)(3)(I).

III. Date of Effectiveness of the Proposed Rule Change, and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve or disapprove such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include File Number SR–FICC–2019–005 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549.

All submissions should refer to File Number SR–FICC–2019–005. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's internet website (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of FICC and on DTCC's website (*http://dtcc.com/legal/sec-rule-filings.aspx*). All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–FICC–2019–005 and should be submitted on or before November 20, 2019.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[24]

Eduardo A. Aleman,

Deputy Secretary.

SMALL BUSINESS ADMINISTRATION

[Disaster Declaration #16162 and #16163; FLORIDA Disaster Number FL–00146]

Presidential Declaration of a Major Disaster for Public Assistance Only for the State of Florida

AGENCY: U.S. Small Business Administration.

ACTION: Notice.

SUMMARY: This is a Notice of the Presidential declaration of a major disaster for Public Assistance Only for the State of Florida (FEMA–4468–DR), dated 10/21/2019.

Incident: Hurricane Dorian.

Incident Period: 08/28/2019 through 09/09/2019.

DATES: Issued on 10/21/2019.

Physical Loan Application Deadline Date: 12/20/2019.

Economic Injury (EIDL) Loan Application Deadline Date: 07/21/2020.

ADDRESSES: Submit completed loan applications to: U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

FOR FURTHER INFORMATION CONTACT: A. Escobar, Office of Disaster Assistance, U.S. Small Business Administration, 409 3rd Street SW, Suite 6050, Washington, DC 20416, (202) 205–6734.

SUPPLEMENTARY INFORMATION: Notice is hereby given that as a result of the President's major disaster declaration on 10/21/2019, Private Non-Profit organizations that provide essential services of a governmental nature may file disaster loan applications at the
