The Marine Mammal Protection Act requires any commercial fisher operating in Category I and II fisheries to register for a certificate of authorization that will allow the fisher to take marine mammals incidental to commercial fishing operations. Category I and II fisheries are those identified by NOAA as having either frequent or occasional takings of marine mammals.

Some states have integrated the NMFS registration process into the existing state fishery registration process and fishers in those fisheries do not need to file a separate federal registration. If applicable, vessel owners will be notified of this simplified registration process when they apply for their state of Federal permit or license.

Affected Public: Business or other for-profit organizations; individuals or households.

Frequency: Annually.

Respondent's Obligation: Mandatory.
