Background

Under a Safe Harbor Agreement, participating landowners voluntarily undertake management activities on their property to enhance, restore, or maintain habitat benefiting species listed under the Act (16 U.S.C. 1531 *et seq.*). Safe Harbor Agreements and the subsequent enhancement of survival permits, issued pursuant to Section 10(a)(1)(A) of the Act, encourage private and other non-Federal property owners to implement conservation efforts for listed species by assuring property owners that they will not be subjected to increased property use restrictions as a result of their efforts to attract listed species to their property, to increase the numbers or distribution of listed species already on their property. Application requirements and issuance criteria for enhancement of survival permits through Safe Harbor Agreements are found in 50 CFR 17.22(c) and 17.32(c). These permits allow any necessary future incidental take of covered species above the mutually agreed upon baseline conditions for those species in accordance with the terms and conditions of the permits and accompanying agreements.

The Agreement is expected to promote the recovery of the beetle within the Abbott Lake Unit of the Feather River Wildlife Area, Sutter County, which is owned and managed by the Department. The proposed duration of the Agreement is 20 years. The enhancement of survival permit would authorize the incidental taking of the beetle associated with: the restoration, enhancement, and maintenance of suitable habitat for the beetle; routine activities associated with routine and ongoing lands management within the Abbott Lake Unit; and the potential future return of the property to baseline conditions. The Department would receive assurances under our “no surprises” regulations (50 CFR 17.22(c)(5) and 17.32(c)(5)) for the beetle. In addition to meeting other criteria, actions to be performed under the enhancement of survival permit must not jeopardize the existence of federally listed fish, wildlife, or plants.

Public Review and Comments

The Service has made a preliminary determination that the proposed Agreement and permit application are eligible for categorical exclusion under the National Environmental Policy Act of 1969 (NEPA). We explain the basis for this determination in an

Environmental Action Statement that is also available for public review.

Individuals wishing copies of the Environmental Action Statement, and/or copies of the full text of the Agreement should contact the office and personnel listed in the **ADDRESSES** section above.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The Service will evaluate this permit application, associated documents, and comments submitted to determine whether the permit application meets the requirements of section 10(a) of the Act and NEPA regulations. If the Service determines that the requirements are met, we will sign the proposed Agreement and issue an enhancement of survival permit under section 10(a)(1)(A) of the Act to the Department for take of the beetle incidental to otherwise lawful activities in accordance with the terms of the Agreement. The Service will not make our final decision until after the end of the 30-day comment period and will fully consider all comments received during the comment period.

The Service provides this notice pursuant to section 10(c) of the Act and pursuant to implementing regulations for NEPA (40 CFR 1506.6).

DEPARTMENT OF THE INTERIOR

Office of Natural Resources Revenue

[Docket No. ONRR–2011–0002; DS63610300 DR2PS0000.CH7000 134D0102R2]

States’ Decisions on Participating in Accounting and Auditing Relief for Federal Oil and Gas Marginal Properties

AGENCY: Office of Natural Resources Revenue, Interior.

ACTION: Notice.

SUMMARY: Final regulations that the Office of Natural Resources Revenue (ONRR) published September 13, 2004

(69 FR 55076), provide two types of accounting and auditing relief for Federal onshore or Outer Continental Shelf lease production from marginal properties. As the regulations require, ONRR provided a list of qualifying marginal Federal oil and gas properties to States that received a portion of Federal royalties. Each State then decided whether to participate in one or both relief options. For calendar year 2013, we provide in this notice the affected States’ decisions to allow one or both types of relief.

DATES: Effective January 1, 2013.

FOR FURTHER INFORMATION CONTACT:

Richard Adamski, Program Manager, Asset Valuation, at (303) 231–3410; or (303) 231–3744 via fax; or via email to richard.adamski@onrr.gov.

SUPPLEMENTARY INFORMATION: The regulations, codified at 30 CFR part 1204, subpart C, implement certain provisions of section 7 of the Federal Oil and Gas Royalty Simplification and Fairness Act of 1996 (RSFA) (30 U.S.C. 1726), which allows States to relieve the lessees of marginal properties from certain reporting, accounting, and auditing requirements. States make an annual determination of whether or not to allow relief. Two options for relief are provided: (1) Notification-based relief for annual reporting and (2) other requested relief, as industry proposed and ONRR and the affected State approved. The regulations require ONRR to publish by December 1 of each year a list of the States and their decisions regarding marginal property relief.

To qualify for the first relief option (notification-based relief) for calendar year 2013, properties must have produced less than 1,000 barrels-of-oil-equivalent (BOE) per year for the base period (July 1, 2011, through June 30, 2012). Annual reporting relief will begin January 1, 2013, with the annual report and payment due February 28, 2014, or March 31, 2014, if you have an estimated payment on file. To qualify for the second relief option (other requested relief), the combined equivalent production of the marginal properties during the base period must equal an average daily well production of less than 15 BOE per well, per day calculated under 30 CFR 1204.4(c).

The following table shows the States that have qualifying marginal properties and the States’ decisions to allow one or both forms of relief.

State	1,000 BOE	15 BOE
Alabama	No	No.
California	No	No.
Colorado	No	No.

State	1,000 BOE	15 BOE
Kansas	No	No.
Louisiana	Yes	Yes.
Michigan	Yes	Yes.
Mississippi	No	No.
Montana	No	No.
Nebraska	No	No.
Nevada	No	No.
New Mexico	No	Yes.
North Dakota	Yes	Yes.
Oklahoma	No	No.
South Dakota	No	No.
Utah	No	No.
Wyoming	No	No.

Federal oil and gas properties located in all other States where ONRR does not share a portion of Federal royalties with the State are eligible for relief if they qualify as marginal under the regulations (See section 117(c) of RSFA (30 U.S.C. 1726(c))). For information on how to obtain relief, please refer to 30 CFR 1204.205 or to the published rule, which you may view at www.onrr.gov/Laws_R_D/FRNotices/AC30.htm.

Unless the information that ONRR received is proprietary data, all correspondence, records, or information that we receive in response to this notice may be subject to disclosure under the Freedom of Information Act (FOIA) (5 U.S.C. 552 *et seq.*). If applicable, please highlight the proprietary portions, including any supporting documentation, or mark the page(s) that contain proprietary data. We protect the proprietary information under the Trade Secrets Act (18 U.S.C. 1905); FOIA, Exemption 4 (5 U.S.C. 552(b)(4)); and Department regulations (43 CFR part 2).
