Steven Blazek, (240) 474–2780, electricity.exports@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export. (16 U.S.C. 824a(e)). On June 13, 2022, the authority to issue such orders was delegated to the DOE’s Grid Deployment Office (GDO) under Delegation Order No. S1–DEL–S3–2022–2 and Redelegation Order No. S3–DEL–GD1–2022.

On May 5, 2008, DOE issued Order No. EA–338 authorizing Shell Energy to transmit electric energy from the United States to Mexico as a power marketer. DOE subsequently renewed Shell Energy’s authorization to export electric energy from the United States to Mexico as a power marketer in Order No. EA–338–A (May 9, 2013), and again in Order No. EA–338–B (May 30, 2018). On December 2, 2022, Shell Energy filed an application with DOE (Application or App) for renewal of their export authority for an additional five-year term. App at 1.

In its Application, Shell Energy states that it “does not own any electric generation or transmission facilities and does not hold a franchise or service territory or native load obligation.” App at 2. Shell Energy seeks to renew its authority to “export electric energy acquired from U.S. generating sources to Mexico over international electric transmission facilities.” App at 3. Shell Energy represents that it “will purchase the power to be exported from electric utilities, qualifying small power production facilities, cogeneration facilities and federal power marketing agencies” and that “electric energy exported pursuant to the authorization requested in this Renewal Application, whether on a firm or interruptible basis, will be purchased in bilateral, voluntary transactions from the surplus and available electric energy of the generator/seller.” App at 4. Therefore,
