Title: TSCA Section 4 Test Rules, Consent Orders, Test Rule Exemptions, and Voluntary Data Submission.

Abstract: Section 4 of the Toxic Substances Control Act (TSCA) is designed to assure that chemicals that may pose serious risks to human health or the environment undergo testing by manufacturers or processors, and that the results of such testing are made available to EPA. EPA uses the information collected under the authority of TSCA section 4 activity to assess risks associated with the manufacture, processing, distribution, use or disposal of a chemical, and to support any necessary regulatory action with respect to that chemical.

EPA must assure that appropriate tests are performed on a chemical if it decides: (1) That a chemical being considered under TSCA section 4(a) may pose an "unreasonable risk" or is produced in "substantial" quantities that may result in substantial or significant human exposure or substantial environmental release of the chemical; (2) that additional data are needed to determine or predict the impacts of the chemical's manufacture, processing, distribution, use or disposal; and (3) that testing is needed to develop such data. Rules and consent orders under TSCA section 4 require that one manufacturer or processor of a subject chemical perform the specified testing and report the results of that testing to EPA. TSCA section 4 also allows a manufacturer or processor of a subject chemical to apply for an exemption from the testing requirement if that testing will be or has been performed by another party.

Responses to the collection of information are mandatory (*see* 40 CFR part 790). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 142 hour per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain

or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Entities potentially affected by this action are companies that manufacture, process, import, use, distribute or dispose of chemicals.

Frequency of Collection: On occasion.

Estimated No. of Respondents: 396.

Estimated Total Annual Burden on Respondents: 203,014 hours.

Estimated Total Annual Costs: \$8,664,319.

Changes in Burden Estimates: This request reflects a decrease of 979,560 hours (from 1,182,574 hours to 203,014 hours) in the total estimated respondent burden from that currently in the OMB inventory. This decrease is due to a re-estimation of the numbers of test rules and enforceable consent agreements that the Agency will issue, and a re-estimation of the expected level of testing remaining to be done under the HPV Challenge Program. In addition, the burden related to an initiative that was previously included, has been transferred to another ICR. The change in burden represents an adjustment.

Dated: January 27, 2005.
