In accordance with Section 223 of the Trade Act of 1974, as amended ("Act"), 19 U.S.C. 2273, the Department of Labor issued a Notice of Revised Determination on Reconsideration on May 6, 2011, applicable to workers of

The workers produce a variety of steel coils. The Revised Determination was published in the **Federal Register** on May 20, 2011 (76 FR 29276-29277). The Revised Determination was amended on June 6, 2011 to include workers whose wages reported under a separate unemployment insurance (UI) tax account under the name RG Steel Wheeling, LLC. Accordingly, the Department is amending this certification to include

workers of the subject firm whose unemployment insurance (UI) wages are reported through Ohio Cold Rolling Company.

The intent of the Department's Revised Determination on Reconsideration is to include all workers of the subject firm who were adversely affected by increased imports of steel coils.

SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion of NRTL Recognition and Request To Remove a Condition of Recognition

The Occupational Safety and Health Administration (OSHA) is providing notice that Intertek Testing Services NA, Inc. (ITSNA) is applying for expansion of its current recognition as a Nationally Recognized Testing Laboratory (NRTL). ITSNA also is requesting to remove a special condition for testing and evaluating hazardous-location equipment.

OSHA recognition of an NRTL signifies that the organization meets the requirements specified in Title 29, Code of Federal Regulations, Section 1910.7 (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition, and is not a delegation or grant of government authority. Recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The Agency processes applications by an NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding. In the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL, including ITSNA, which details the NRTL's scope of recognition. These pages are available from the OSHA Web site at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

Each NRTL's scope of recognition has three elements: (1) The type of products the NRTL may test, with each type specified by its applicable test standard; (2) the recognized site(s) that has/have
