

Nasdaq implements significant changes involving its hardware and software systems. Because the Service operates before the opening of the domestic session of Nasdaq, the Service allows for the early detection of systems or communication problems. Accordingly, the Commission believes that this pilot operation warrants an extension to permit possible enhancements that will increase the Service's utility and attractiveness to the investment community. Any changes to the operation of the Service will be filed pursuant to Section 19(b)(2) of the Act.⁹

Pursuant to Section 19(b)(2) of the Act,¹⁰ the Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof in the **Federal Register**. The Commission believes that it is appropriate to approve on an accelerated basis the one-year extension of the Service, until October 9, 2002, to ensure the continuous operation of the Service, which is set to expire on October 9, 2001.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹¹ that the proposed rule change (SR-NASD-2001-65) is hereby approved an accelerated basis.¹²

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.
