This information is collected in support of, respectively, sections 401–407 of the Agricultural Credit Act of 1978 (Pub. L. 95–334), as amended, and section 9011 of the Farm Security and Rural Investment Act of 2002 (Pub. L. 107–171), as amended.

Activity related to BCAP did not change since the last Office of Management and Budget (OMB) submission due to the lack of BCAP funding. Activity related to ECP requests, approvals, and payments has increased due to major storm systems that caused catastrophic damage across the nation, from 2022–2023. Hurricane Fiona and Ian occurred in 2022. Multiple wildfires in 2022 and flood events in 2023 all contributed to the increase in activity. The new Cost-Share Request form for ECP is included in this request. The number of responses increased to 560,000 while the burden hours increased by 18,497 to cover the new Cost-Share Request form. The number of respondents remains 140,000 in the request.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hours is the estimated average time per response multiplied by the estimated total annual of responses.

Estimate of Average Time to Respond: Public reporting burden for collecting information under this notice is estimated to average 0.0688 hours per responses, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information for all respondents.

Type of Respondents: Owners, operators and other eligible agricultural producers on eligible farmland.

Estimated Number of Respondents: 140,000.

Estimated Number of Responses per Respondent: 3.04.

Estimated Total Annual Responses: 945,445.

Estimated Total Annual Burden on Respondents: 67,852 hours.

We are requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Evaluate the quality, ability and clarity of the information technology; and

(4) Minimize the burden of the information collection on those who respond through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information.

All responses to this notice, including names and addresses when provided, will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
