(8) Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

This action is not subject to Executive Order 13211, "Actions Concerning Regulations that Significantly Affect Energy Supply, Distribution, or Use" (66 FR 28355, May 22, 2001) because it is not a "significant regulatory action" as defined under Executive Order 12866.

(9) National Technology Transfer and Advancement Act

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 ("NTTAA"), Public Law 104-113, section 12(d) (15 U.S.C. 272), directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus bodies. The NTTAA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards. The proposed action includes environmental monitoring and measurement as described in EPA's draft SMMP. EPA will not require the use of specific, prescribed analytic methods for monitoring and managing the proposed Sites once designated. Rather, the Agency plans to allow the use of any method, whether it constitutes a voluntary consensus standard or not, that meets the monitoring and measurement criteria discussed in the SMMP. EPA welcomes comments on this aspect of the proposed rulemaking and, specifically, invites the public to identify potentially-applicable voluntary consensus standards and to explain why such standards should be used in this regulation.

(10) Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low Income Populations

Executive Order 12898 (59 FR 7629 (Feb. 16, 1994)) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or

environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States. EPA has determined that this proposed rule will not have disproportionately high and adverse human health or environmental effects on minority or low-income populations because it does not affect the level of protection provided to human health or the environment. EPA has assessed the overall protectiveness of designating the proposed disposal Sites against the criteria established pursuant to the MPRSA to ensure that any adverse impact on the environment will be mitigated to the greatest extent practicable.

[EPA-R05-RCRA-2008-0712; FRL-8744-9]

Wisconsin: Final Authorization of State Hazardous Waste Management Program Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Wisconsin has applied to EPA for final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA has reviewed Wisconsin's application and has preliminarily determined that these changes satisfy all requirements needed to qualify for final authorization, and is

proposing to authorize the State's changes. This proposal authorizes Wisconsin for new regulations which they have not been previously authorized for.

DATES: Comments on this proposed rule must be received on or before *December 26, 2008*.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-RCRA-2008-0712 by one of the following methods: <http://www.regulations.gov>: Follow the online instructions for submitting comments.

E-mail: gromnicki.jean@epa.gov.

Mail: Jean Gromnicki, Wisconsin Regulatory Specialist, LR-8J, U.S. EPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

Instructions: Direct your comments to Docket ID Number EPA-R05-RCRA-2008-0712. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The www.regulations.gov Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters or any form of encryption, and be free of any defects or viruses. For additional information about EPA's public docket, visit the EPA Docket Center homepage at <http://www.epa.gov/epahome/dockets.htm>.

Docket: All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some of the information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute.

Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in <http://www.regulations.gov> or in hard copy. You may view and copy Wisconsin's application from 9 a.m. to 4 p.m. at the following addresses: U.S. EPA, Region 5, LR-8J, 77 West Jackson Boulevard, Chicago, Illinois, contact: Jean Gromnicki (312) 886-6162; or Wisconsin Department of Natural Resources, 101 S. Webster Street, Madison, Wisconsin, contact: Patricia Chabot (608) 264-6015.

FOR FURTHER INFORMATION CONTACT: Jean Gromnicki, Wisconsin Regulatory Specialist, U.S. EPA, Region 5, LR-8J, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-6162, e-mail gromnicki.jean@epa.gov.

SUPPLEMENTARY INFORMATION:

A. Why Are Revisions to State Programs Necessary?

States which have received final authorization from EPA under RCRA Section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than, the Federal program. As the Federal program changes, States must change their programs and ask EPA to authorize the changes. Changes to State programs may be necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, States must change their programs because of changes to EPA's regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 266, 268, 270, 273 and 279.

B. What Decisions Have We Made in This Rule?

We conclude that Wisconsin's application to revise its authorized program meets all of the statutory and regulatory requirements established by RCRA. Therefore, we propose to grant Wisconsin final authorization to operate its hazardous waste program with the changes described in the authorization application. Wisconsin has responsibility for permitting Treatment, Storage, and Disposal Facilities (TSDFs) within its borders (except in Indian Country) and for carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the Hazardous and Solid Waste Amendments of 1984 (HSWA). New Federal requirements and prohibitions imposed by Federal regulations that EPA promulgates under the authority of

HSWA take effect in authorized States before they are authorized for the requirements. Thus, EPA will implement those requirements and prohibitions in Wisconsin, including issuing permits, until the State is granted authorization to do so.

C. What Is the Effect of This Authorization Decision?

The effect of this decision is that a facility in Wisconsin subject to RCRA will now have to comply with the authorized State requirements instead of the equivalent Federal requirements in order to comply with RCRA. Wisconsin has enforcement responsibilities under its State hazardous waste program for violations of such program, but EPA retains its authority under RCRA sections 3007, 3008, 3013, and 7003, which include, among others, authority to:

1. Do inspections, and require monitoring, tests, analyses or reports.
2. Enforce RCRA requirements and suspend or revoke permits.
3. Take enforcement actions regardless of whether the State has taken its own actions.

This action does not impose additional requirements on the regulated community because the regulations for which Wisconsin is being authorized by today's action are already effective, and are not changed by today's action.

D. What Happens If EPA Receives Comments That Oppose This Action?

If EPA receives comments that oppose this authorization, we will address all public comments in a later **Federal Register**. You may not have another opportunity to comment. If you want to comment on this authorization, you must do so at this time.

E. What Has Wisconsin Previously Been Authorized for?

Wisconsin initially received final authorization on January 30, 1986, effective January 31, 1986 (51 FR 3783) to implement the RCRA hazardous waste management program. We granted authorization for changes to their program on May 23, 1989, effective June 6, 1989 (54 FR 15029), on November 22, 1989, effective January 22, 1990 (54 FR 48243), on April 24, 1992, effective April 24, 1992 (57 FR 15029), on June 2, 1993, effective August 2, 1993 (58 FR 31344), on August 4, 1994, effective October 4, 1994 (59 FR 39971), on August 5, 1999, effective October 4, 1999 (64 FR 42630), and on June 26, 2002, effective June 26, 2002 (67 FR 43002).

F. What Changes Are We Authorizing With This Action?

On April 29, 2008, Wisconsin submitted a final complete program revision application, seeking

authorization of their changes in accordance with 40 CFR 271.21. We now make a final decision, subject to receipt of written comments that oppose this action, that Wisconsin's hazardous waste program revision satisfies all of

the requirements necessary to qualify for final authorization. Therefore, we propose to grant Wisconsin final authorization for the following program changes:

G. Where Are the Revised State Rules Different From the Federal Rules?

These practices are prohibited in Wisconsin: Underground Injection (40 CFR part 144), and Land Treatment (40 CFR 270.20). Wisconsin also does not provide for Permit by Rule (40 CFR 270.60). Wisconsin does not allow automatic authorization under the permit modification regulations found in 40 CFR 270.42(b)(6). The 10 year Remedial Action Plan, or RAP (40 CFR 270.79 *et seq.*) is replaced by a 5 year Remediation Variance (NR670.079).

These Wisconsin regulations are more stringent: 662.220(5)(c,d), 662.220(6)(c,d,f), and 670.030 (annual report required instead of a biennial report).

Wisconsin maintains different financial regulations, that allow for additional equivalent financial mechanisms (664.0143), do not allow the net worth test for closure under Part 665, and maintain some more stringent insurance requirements under

664.0143(5)(h), 664.0147(1)(a)(3), and 665.0147(1)(a)(3).

The following Wisconsin regulations have no Federal Counterpart: 666.081, 666.900 through 666.910, and 673.11. On the converse, there are no Wisconsin provisions for 40 CFR 268.5, 268.44 (other than 268.44(h)), and 270.3 as these are Federal non-delegable provisions.

H. Who Handles Permits After the Authorization Takes Effect?

Wisconsin will issue permits for all the provisions for which it is authorized and will administer the permits it issues. EPA will continue to administer any RCRA hazardous waste permits or portions of permits which we issued prior to the effective date of this authorization until they expire or are terminated. We will not issue any more new permits or new portions of permits for the provisions listed in the Table above after the effective date of this authorization. EPA will continue to

implement and issue permits for HSWA requirements for which Wisconsin is not yet authorized.

I. How Does This Action Affect Indian Country (18 U.S.C. 1151) in Wisconsin?

Wisconsin is not authorized to carry out its hazardous waste program in "Indian Country," as defined in 18 U.S.C. 1151. Indian Country includes:

1. All lands within the exterior boundaries of Indian reservations within the State of Wisconsin;
2. Any land held in trust by the U.S. for an Indian tribe; and
3. Any other land, whether on or off an Indian reservation that qualifies as Indian Country.

Therefore, this action has no effect on Indian Country. EPA will continue to implement and administer the RCRA program in Indian Country.

J. What Is Codification and Is EPA Codifying Wisconsin's Hazardous Waste Program as Authorized in This Rule?

Codification is the process of placing the State's statutes and regulations that comprise the State's authorized hazardous waste program into the Code of Federal Regulations. We do this by referencing the authorized State rules in 40 CFR part 272. Wisconsin's rules, up to and including those revised June 7, 1991, as corrected August 19, 1991, have previously been codified through the incorporation-by-reference effective February 4, 1992 (57 FR 4162). We reserve the amendment of 40 CFR part 272, subpart KK for the codification of Wisconsin's program changes until a later date.

K. Statutory and Executive Order Reviews

This proposed rule only authorizes hazardous waste requirements pursuant to RCRA 3006 and imposes no requirements other than those imposed by State law (see **SUPPLEMENTARY INFORMATION**, Section A. Why are Revisions to State Programs Necessary?). Therefore this rule complies with applicable executive orders and statutory provisions as follows:

1. Executive Order 18266: Regulatory Planning Review

The Office of Management and Budget has exempted this rule from its review under Executive Order 12866 (58 FR 51735, October 4, 1993).

2. Paperwork Reduction Act

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

3. Regulatory Flexibility Act

After considering the economic impacts of today's rule on small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), I certify that this rule will not have a significant economic impact on a substantial number of small entities.

4. Unfunded Mandates Reform Act

Because this rule approves pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

5. Executive Order 13132: Federalism

Executive Order 13132 (64 FR 43255, August 10, 1999) does not apply to this rule because it will not have federalism implications (*i.e.*, substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government).

6. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

Executive Order 13175 (65 FR 67249, November 9, 2000) does not apply to this rule because it will not have tribal implications (*i.e.*, substantial direct effects on one or more Indian tribes, or on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.)

7. Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

This rule is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant as defined in Executive Order 12866 and because the EPA does not have reason to believe the environmental health or safety risks addressed by this action present a disproportionate risk to children.

8. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

This rule is not subject to Executive Order 13211 (66 FR 28355, May 22, 2001), because it is not a significant regulatory action as defined in Executive Order 12866.

9. National Technology Transfer Advancement Act

EPA approves State programs as long as they meet criteria required by RCRA, so it would be inconsistent with applicable law for EPA, in its review of a State program, to require the use of any particular voluntary consensus standard in place of another standard that meets requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply to this rule.

10. Executive Order 12988

As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize

potential litigation, and provide a clear legal standard for affected conduct.

11. Executive Order 12630: Evaluation of Risk and Avoidance of Unanticipated Takings

EPA has complied with Executive Order 12630 (53 FR 8859, March 18, 1988) by examining the takings implications of the rule in accordance with the Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings issued under the executive order.

12. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low Income Populations

Because this rule proposes authorization of pre-existing State rules and imposes no additional requirements beyond those imposed by State law and there are no anticipated significant adverse human health or environmental effects, the rule is not subject to Executive Order 12898 (59 FR 7629, February 16, 1994).
