[Project No. 2905–035]

Village of Enosburg Falls, Vermont; Notice of Intent To Prepare an Environmental Assessment

On April 30, 2021, the Village of Enosburg Falls, Vermont (Village) filed a relicense application for the 975-kilowatt Enosburg Falls Hydroelectric Project No. 2905 (project). The project is located on the Missisquoi River in

Franklin County, Vermont. The project does not occupy federal land.

In accordance with the Commission's regulations, on June 2, 2022, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, including comments filed on the REA Notice, staff does not anticipate that licensing the project would constitute a major federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to relicense the project.

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA	February 2023. ¹
Comments on EA	March 2023.

Any questions regarding this notice may be directed to John Baummer at (202) 502–6837 or john.baummer@ferc.gov.
