

including prohibitions on the installation of groundwater wells and use of groundwater.

In February 2004, a Long-Term Monitoring Plan was developed by the EPA to track the size of the chromium plume downgradient of the Site and to ensure the protectiveness of the remedy. In 2007, the size of the network and the frequency of sampling were reduced. The final sampling event took place in 2016.

Cleanup Levels

The cleanup levels established in the RODA were based on federal drinking water standards, State cleanup levels established under the Model Toxics Control Act (MTCA), and State surface water standards. Consistent with MTCA, cleanup levels for hexavalent and trivalent chromium in soils were set at 19 mg/kg and 80,000 mg/kg respectively. Also based on MTCA, a groundwater cleanup level of 50 µg/L total chromium was established. Finally, the State's chronic surface water standards were used to establish a cleanup level of 10.5 µg/L for groundwater immediately upgradient of the Columbia River.

Following the 2016 sampling event, the EPA reviewed the data and found that, over the last several years, total chromium had only been detected at one well and that the groundwater concentrations at that well were below the cleanup level of 50 µg/L (Well B-87-8; 8.82 µg/L total chromium). A statistical analysis indicated the groundwater had attained the cleanup level and was expected to continue to do so in the future. Since monitoring began in 2004, the total chromium concentration in the wells closest to the river (well W99-R5A W99-R5B) have been below the cleanup level of 10.5 µg/L set for groundwater immediately upgradient of the Columbia River.

A Final Close-Out Report documenting completion of all remedial actions was signed by the EPA on January 29, 2018. The report documented that all soil and groundwater Remedial Action Objectives (RAOs) and cleanup levels established in the 2001 RODA had been attained, the remedy had been successfully implemented, and no further CERCLA actions were required at the Site. However, in 2018, all remaining monitoring wells will be decommissioned by Ecology. No additional monitoring or Operations and Maintenance of the remedy are required.

Five-Year Review

Three policy five-year reviews (FYR) have been completed at the Site, the last one in January 2018.

No issues or follow-up actions were identified as part of the 2018 Five-Year Review. The protectiveness statement read: "Because the remedial actions at OU 1 and OU 2 are protective, the site is protective of human health and the environment."

The analysis conducted concurrent with the last FYR indicates that the remedy has been fully implemented and the remedial action objectives and related cleanup levels have been attained. No hazardous substances, pollutants or contaminants remain above levels that could prevent unlimited use and unrestricted exposure (UU/UE). Therefore, no further five-year reviews are required.

Community Involvement

Public participation activities have been satisfied as required in CERCLA Section 113(k), 42 U.S.C. 9613(k) and CERCLA Section 117, 42 U.S.C. 9617. Throughout the remedial process, the EPA has kept the public informed of activities being conducted at the Site by way of informational meetings, fact sheets and public meetings.

Documents in the deletion docket which the EPA relied on for the recommendation for deletion from the NPL are available to the public at the information repositories identified previously. Concurrent with this notice, a notice of availability of the Notice of Intent for Deletion has been published in *The Columbian*, initiating a 30-day public comment period. EPA will review all comments received before making a final decision on this proposed deletion action.

Determination That the Site Meets the Criteria for Deletion in the NCP

The EPA, with concurrence of the State of Washington through the Department of Ecology, has determined that the implemented remedy achieves the degree of cleanup or protection specified in the RODs and RODA for all pathways of exposure. All selected remedial and removal action objectives and associated cleanup levels are consistent with agency policy and guidance. No further Superfund response is needed to protect human health and the environment.

In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where all appropriate response actions have been implemented and where no further response is appropriate. Consistent with this, the

EPA is proposing deletion of this Site from the NPL.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 2

[GN Docket No. 18–122; DA 18–446]

Office of Engineering and Technology, International, and Wireless Telecommunications Bureaus Seek Comment for Report on the Feasibility of Allowing Commercial Wireless Services, Licensed or Unlicensed, To Use or Share Use of the Frequencies Between 3.7–4.2 GHz

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, and pursuant to the Making Opportunities for Broadband Investment and Limiting Excessive and Needless Obstacles to Wireless Act (MOBILE NOW Act), the Office of Engineering and Technology and the International and Wireless Telecommunications Bureaus (Bureaus) seek comment for an upcoming Commission report that will address the feasibility of allowing commercial wireless services to use or share use of the 3.7–4.2 GHz spectrum band.

DATES: Comments are due on or before May 31, 2018. Reply comments are due on or before June 15, 2018.

ADDRESSES: To the extent commenters wish to submit materials in the current docket (GN Docket No. 18–122) that are substantially similar to materials filed in other potentially related Commission proceedings (such as GN Docket No. 17–183, RM–11778, and RM–11791), the Commission asks commenters to submit an abbreviated filing that incorporates by reference the relevant arguments

from any previously filed material by identifying (a) the previously filed document (with the docket number of the proceeding in which it was filed and the date filed), and (b) the specific arguments in that previously filed document that the commenter is submitting for consideration in the current proceeding. You may submit comments, identified by [GN Docket No. 18–122], by any of the following methods:

■ **Electronic Filers:** Comments may be filed electronically using the internet by accessing the ECFS: <https://www.fcc.gov/ecfs/filings>. Filers should follow the instructions provided on the website for submitting comments. In completing the transmittal screen, filers should include their full name, U.S. Postal Service mailing address, and the applicable docket number, GN Docket No. 18–122.

■ **Paper Filers:** Parties who choose to file by paper must file an original and one copy of each filing. If more than one docket or rulemaking number appears in the captions of this proceeding, filers must submit two additional copies for each additional docket or rulemaking number. Filings in response to this document can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.

■ All hand-delivered or messenger-delivered paper filings for the Commission's Secretary must be delivered to FCC Headquarters at 445 12th St. SW, Room TW–A325, Washington, DC 20554. The filing hours are 8:00 a.m. to 7:00 p.m. Eastern Time. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building.

■ **Commercial overnight mail** (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.

■ **U.S. Postal Service** first-class, Express, and Priority mail must be addressed to 445 12th Street SW, Washington, DC 20554.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an email to fcc504@fcc.gov or call the Consumer & Governmental Affairs

Bureau at (202) 418–0530 (voice), (202) 418–0432 (TTY).

FOR FURTHER INFORMATION CONTACT:

Ariel Diamond, (202) 418–2803, Ariel.Diamond@fcc.gov.

SUPPLEMENTARY INFORMATION: On March 23, 2018, Congress passed the FY 2018 omnibus spending bill into law, which includes the MOBILE NOW Act under Title VI of RAY BAUM'S Act.¹ Section 605(b) of the MOBILE NOW Act requires the Commission to submit a report (3.7–4.2 GHz Report), to appropriate committees of Congress² and to the Secretary of Commerce no later than September 23, 2019, “evaluating the feasibility of allowing commercial wireless services, licensed or unlicensed, to use or share use of the frequencies between 3700 megahertz and 4200 megahertz.”³

The Commission notes that there is currently no federal allocation for the 3.7–4.2 GHz band. Nonetheless, we seek comment on the following questions:

- How should we assess the operations and possible impacts of sharing on Federal and non-Federal users already operating in this band?
- How might sharing be accomplished, with licensed and/or unlicensed operations, without causing harmful interference to Federal and non-Federal users already operating in this band, and in which parts of the band would such sharing be feasible?
- What other considerations should the Commission take into account in preparing the 3.7–4.2 GHz Report?

The Act further provides that the report should include an assessment of the operations of Federal entities that operate Federal Government stations authorized to use the 3.7–4.2 GHz band.⁴ The Commission intends to consult with National Telecommunications and Information Administration (NTIA) and the heads of each affected Federal agency regarding the Federal entities, stations, and operations in the band, and the required issues and assessments. This document does not contain proposed information collection(s) subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. In addition, therefore, it does not contain any new or modified information collection burden for small

business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, *see* 44 U.S.C. 3506(c)(4).

Paperwork Reduction Act (PRA)

This document does not contain proposed information collection(s) subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, *see* 44 U.S.C. 3506(c)(4).

Ex Parte Rules

This proceeding has been designated as a “permit-but-disclose” proceeding in accordance with the Commission's *ex parte* rules.⁵ Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter's written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b).

Federal Communications Commission.

John Schauble,

Deputy Chief, Broadband Division, Wireless Telecommunications Bureau.
