#### **Patman Power, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications**

On February 28, 2014, Wright Patman Power, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) Wright Patman Dam, on the Sulphur River near the town of Texarkana in Bowie County, Texas. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) Three 48 inch-diameter, 300-foot-long steel penstocks; (2) three inline generation units with a total capacity of 4-megawatts; (3) a switchyard on the south bank adjacent to the dam; (4) a 1-mile-long, 138kV transmission line.

The project would have an average annual generation of 10,000 megawatt-hours and operate utilizing surplus water from the Wright Patman Lake, as directed by the Corps.
