Inflation Adjustment of Acquisition-Related Thresholds (FAR Case 2019–013)

This final rule amends the Federal Acquisition Regulation (FAR) to further

implement 41 U.S.C. 1908. Section 1908 requires an adjustment every 5 years (in years evenly divisible by 5) of statutory acquisition-related thresholds for inflation using the Consumer Price Index for all urban consumers, except for the Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds (see FAR 1.109). DoD, GSA, and NASA are also using the same methodology to change nonstatutory FAR acquisition-related thresholds for adjustment in 2020. This final rule will not have a significant economic impact on a substantial number of small entities.

Federal Acquisition Regulation: Inflation Adjustment of Acquisition- Related Thresholds

AGENCY: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: DoD, GSA, and NASA are issuing a final rule amending the Federal Acquisition Regulation (FAR) to further implement the statute which requires an adjustment every five years of statutory acquisition-related thresholds for inflation. The adjustment uses the Consumer Price Index for all urban consumers, and does not apply to the Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds. DoD, GSA, and NASA are also using the same methodology to adjust nonstatutory FAR acquisition-related thresholds in 2020.

DATES: *Effective:* October 1, 2020.

SUPPLEMENTARY INFORMATION:

I. Background

DoD, GSA, and NASA published a proposed rule at 85 FR 39146 on June 30, 2020, to further implement 41 U.S.C. 1908. Section 1908 requires an adjustment every five years (on October 1 of each year evenly divisible by five) of statutory acquisition-related thresholds for inflation, using the Consumer Price Index (CPI) for all urban consumers, except for the Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds (see FAR 1.109). As a matter of policy, DoD, GSA, and NASA are also using the same methodology to adjust nonstatutory FAR acquisition-related thresholds on October 1, 2020.

The preamble to the proposed rule contained detailed explanations of—

- What an acquisition-related threshold is;
- What acquisition-related thresholds are not subject to escalation adjustment under this case;
- How the Defense Acquisition Regulations Council and the Civilian Agency Acquisition Council (Councils) analyze statutory and non-statutory acquisition-related thresholds; and
- The effect of this rule on the most heavily used thresholds.

DoD, GSA, and NASA implemented three rules that have reduced the complexity and impact of the October 1, 2020, threshold adjustments throughout the FAR. The changes implemented through these rules significantly reduced the number of cite-specific inflation adjustments in the FAR and associated matrix.

FAR Case 2018-004, published as a final rule on July 2, 2020 (85 FR 40064) implemented section 217(b) of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2017 (Pub. L. 114-328) and sections 805, 806, and 1702(a) of the NDAA for FY 2018 (Pub. L. 115-91), to increase the micro-purchase threshold (MPT) to \$10,000 and simplified acquisition threshold (SAT) to \$250,000 throughout the FAR. The case also changed some stated dollar thresholds to text to ensure continued alignment with the value defined in FAR subpart 2.101.

FAR Case 2018-005, published as a final rule on July 2, 2020 (85 FR 40071) implemented section 811 of the NDAA for FY 2018 that amended 10 U.S.C. 2306a, Cost or Pricing Data: Truth in Negotiations and 41 U.S.C. 3502, Required cost or pricing data and certification. The case increased the threshold for requesting certified cost or pricing data from \$750,000 to \$2 million

for contracts entered into after June 30, 2018.

FAR Case 2018-007, published as a final rule on May 6, 2020 (85 FR 27088) implemented section 821 of the NDAA for FY 2018 (Pub. L. 115-91) which made inflation adjustments of statutory acquisition-related thresholds under 41 U.S.C. 1908 applicable to existing contracts and subcontracts that contain the clause implementing section 821 and that are in effect on the date of the adjustment. The case replaced throughout FAR part 52 as appropriate, numerical values based on the value of the MPT or the SAT with the term “micro-purchase threshold” or “simplified acquisition threshold”. When such terms are used, there is a reference to the definition in FAR 2.101. In addition to the MPT and SAT, numerical values for certain thresholds have been replaced with a reference to the applicable FAR text that specifies the numerical threshold.

The following list identifies the impact of this rule on heavily-used thresholds.

- The micro-purchase threshold at FAR 2.101 was raised to \$10,000 by statute (see FAR Case 2018-004). No further increase to the basic threshold is made at this time, as there has been insufficient inflation. Paragraph 3(ii) of the definition, for acquisitions to support contingency operations or to facilitate defense against certain attacks, is increasing from \$30,000 to \$35,000.

- The simplified acquisition threshold was changed to \$250,000 by statute (see FAR Case 2018-004). No further increase in the basic threshold is proposed, as there has been insufficient inflation. Paragraph 1(i) of the definition for acquisitions to support contingency operations or to facilitate defense against certain attacks, is increasing from \$750,000 to \$800,000.

- The preaward and post-award notices (FAR part 5) remain at \$25,000 because of trade agreements.

- The requirements for limiting competition (FAR part 6) to eligible 8(a) awards over \$22 million is increased to \$25 million.

- The simplified procedures for certain commercial items ceiling (FAR 13.500) is increased from \$7 million to \$7.5 million. For acquisitions described at 13.500(c), the ceiling is increasing from \$13.5 million to \$15 million.

- The cost or pricing data threshold (FAR 15.403-4) was increased by statute from \$750,000 to \$2 million (see FAR Case 2018-005) and is not increasing in this case.

- The prime contractor subcontracting plan (FAR 19.702) threshold is increasing from \$700,000 to
