

Redelegation Order No.S3–DEL–WAPA1–2023, effective April 10, 2023, the Under Secretary for Infrastructure redelegated the authority to confirm, approve, and place such rates into effect on an interim basis to WAPA's Administrator.

Availability of Information

All brochures, studies, comments, letters, memorandums, or other documents that RM initiates or uses to develop the proposed formula rates are available for inspection and copying at the Rocky Mountain Regional Office located at 5555 East Crossroads Boulevard, Loveland, Colorado. Many of these documents and supporting information are also available on RM's website at: www.wapa.gov/about-wapa/regions/rm/rm-rates/2025-rate-adjustment-firm-electric-service.

Ratemaking Procedure Requirements: Environmental Compliance

WAPA is in the process of determining whether an environmental assessment or an environmental impact statement should be prepared or if this action can be categorically excluded from those requirements.⁴

Determination Under Executive Order 12866

WAPA has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Signing Authority

This document of the Department of Energy was signed on June 24, 2024, by Tracey A. LeBeau, Administrator, Western Area Power Administration, pursuant to delegated authority from the Secretary of Energy. That document, with the original signature and date, is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

⁴In compliance with the National Environmental Policy Act (NEPA) of 1969, as amended, 42 U.S.C. 4321–4347; the Council on Environmental Quality Regulations for implementing NEPA (40 CFR parts 1500–1508); and DOE NEPA Implementing Procedures and Guidelines (10 CFR part 1021).

Signed in Washington, DC, on June 25, 2024.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

2024 Clean Water Act Section 319 Guidelines

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: The U.S. Environmental Protection Agency (EPA) announces revised guidelines for eligible recipients (states, territories, and the District of Columbia) awarded Federal grants under section 319 of the Clean Water Act (CWA) for the implementation of nonpoint source management programs (“2024 Guidelines”). The 2024 guidelines describe the requirements that apply to recipients of grants made with funds appropriated by Congress under the Clean Water Act. These new guidelines will replace the Nonpoint Source Program and Grants Guidelines for States and Territories that have been in effect since the fiscal year 2014 grant cycle. The revisions are intended to advance new science and information, engage communities, and guide the national Nonpoint Source Program.

FOR FURTHER INFORMATION CONTACT: Cynthia Curtis, Watershed Restoration, Assessment, and Protection Division, Office of Water (4503T), Environmental Protection Agency, 1301 Constitution Ave. NW, Washington, DC 20460; telephone number: 202–566–0340; email address: curtis.cynthia@epa.gov. A copy of the guidelines can be found on the Clean Water Act section 319 Grant Guidance website, <https://www.epa.gov/nps/cwa-ss319-grant-current-guidance>.

SUPPLEMENTARY INFORMATION:

I. General Information

This notice of availability is intended to inform the public and state nonpoint source management programs of the release of the 2024 Guidelines. The revisions to these guidelines were informed by two years of stakeholder engagements with Clean Water Act section 319 grantees, sub-recipients of CWA section 319 funding, local community organizations, and other

important stakeholders. Among other changes, these revisions encourage recipients (states, territories, and the District of Columbia) awarded CWA section 319 funds to take actions that ensure equitable access to nonpoint source water quality benefits and advance climate resilient nonpoint source solutions. More information is available on EPA's 2023 nonpoint source Guidelines updates website, <https://www.epa.gov/nps/319-grant-historic-guidance>. EPA publishes separate CWA section 319 guidelines for Tribal grantees, <http://www.epa.gov/nps/tribal>. State and Tribal nonpoint source programs include a variety of components, including technical assistance, financial assistance, education, training, technology transfer, demonstration projects, and regulatory programs. Clean Water Act section 319(h) grant funds are provided only to designated state, territorial, and Tribal agencies to implement EPA-approved nonpoint source management programs. More information is available on EPA's websites for 319 Grant Program for States and Territories <https://www.epa.gov/nps/319-grant-program-states-and-territories> and nonpoint source program equity information, <https://www.epa.gov/nps/equity-resources>.

If you have questions regarding the applicability of this action to a particular entity, consult the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Ann Ferrio,

Deputy Director, Office of Wetlands, Oceans and Watersheds.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for Cellulose Products Manufacturing (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Cellulose Products Manufacturing (EPA ICR Number 1974.12, OMB Control Number 2060–0488), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through June 30, 2024. Public comments were previously requested, via the **Federal Register** on May 18, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before July 29, 2024.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2023–0130, to EPA online using <https://www.regulations.gov/> (our preferred method), or by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. The EPA’s policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the

comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this specific information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243–05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541–0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through June 30, 2024. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested, via the **Federal Register**, on May 18, 2023 during a 60-day comment period (87 FR 43843). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov/>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Cellulose Products Manufacturing (40 CFR part 63, subpart UUUU) were proposed on August 28, 2000; promulgated on June 11, 2002; and most-recently amended on July 2, 2020. These regulations apply to each existing, reconstructed, and new Cellulose Products Manufacturing operation that is either a major source of hazardous air pollutant (HAP) emissions or is collocated with other sources that are individually, or collectively, a major source of HAP emissions. A major source either emits or has the potential to emit any single HAP at the rate of 10 tons (9.07

megagrams) or more per year, or any combination of HAP at a rate of 25 tons (22.68 megagrams) or more per year. New facilities include those that either commenced construction, modification or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart UUUU.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: 5900–647.

Respondents/affected entities: Cellulose Products Manufacturing facilities.

Respondent’s obligation to respond: Mandatory (40 CFR part 63, subpart UUUU).

Estimated number of respondents: 8 (total).

Frequency of response: Initially, semiannually.

Total estimated burden: 7,256 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,134,894 (per year), which includes \$120,135 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There are no significant changes in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations: 1) the regulations have not changed over the past three years and are not anticipated to change over the next three years; and 2) the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup and/or operation and maintenance (O&M) costs.

Courtney Kerwin,

Director, Information Engagement Division.
