SUPPLEMENTARY INFORMATION:

Background

On July 6, 2023, we published a notice of receipt of application from University of Massachusetts Dartmouth School for Marine Science and Technology (SMAST) for an incidental take permit pursuant to the Endangered Species Act of 1973, as amended (ESA). In that notice we made the incidental take permit application available for public comment. The permit application is for the incidental take of ESA-listed sturgeon and sea turtles associated with the otherwise lawful fisheries survey activities within and adjacent to the Massachusetts/Rhode Island Wind Energy Area.

We received two requests to extend the public comment period by 15 and 30 calendar days in order to provide the public with additional time to gather relevant information and adequately comment on the application in a meaningful and constructive manner. We considered the requests and concluded that a 15-day extension should allow sufficient time for

responders to submit comments without significantly delaying the completion of our review. We are therefore reopening the public comment period from August 16, 2023, to August 31, 2023. Comments previously submitted do not need to be resubmitted.

Authority: The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

Dated: August 10, 2023.

*Chief, Marine Mammal and Sea Turtle
 Division, Office of Protected Resources,
