

The proposed general permit also will not uniquely affect small governments because compliance with the permit conditions affects small governments in the same manner as any other entities seeking coverage under the proposed general permit.

L. *Regulatory Flexibility Act.* Under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, EPA is required to prepare a Regulatory Flexibility Analysis to assess the impact of rules on small entities. Under 5 U.S.C. 605(b), no Regulatory Flexibility Analysis is required where the head of the Agency certifies that the rule will not have a significant economic impact on a substantial number of small entities.

The Agency takes the position that NPDES general permits are not subject to rulemaking requirements under APA section 553 or any other law. The requirements of APA section 553 apply only to the issuance of "rules," which the APA defines in a manner that excludes permits. See APA section 551(4), (6) and (8). The CWA also does not require publication of a general notice of proposed rulemaking for general permits. EPA publishes draft general NPDES permits for public comment in the **Federal Register** in order to meet the applicable CWA procedural requirement to provide "an opportunity for a hearing." See CWA section 402(a), 33 U.S.C. 1342(a).

Nevertheless, the Agency has determined that the permit will not have a significant economic impact on a substantial number of small entities. The permit requirements have been designed to minimize significant administrative and economic impacts on small entities and should not have a significant impact on regulated sources in general. Moreover, the proposed general permit reduces a significant burden on regulated sources of applying for individual permits.

M. *Signature.* Accordingly, I hereby find consistent with the provisions of the RFA, that this proposed general permit will not have a significant impact on a substantial number of small entities.
