Title: Grain Market News Reports.

OMB Control Number: 0581-0005.

Summary of Collection: The

Agricultural Marketing Act of 1946 (7 U.S.C. 1621) Section 203(g), directs and authorizes the collection and dissemination of marketing information including adequate outlook information, on a market area basis, for the purpose of anticipating and meeting consumer requirements aiding in the maintenance of farm income and to bring about a balance between production and utilization. Livestock and Grain News provides a timely exchange of accurate and unbiased information on a current marketing conditions (supply, demand, prices, trends, movement, and other information) affecting trade in livestock, meats, grain, and wool. Administered by the U.S. Department of Agriculture's Agricultural Marketing Service (AMS), this nationwide market news program is conducted in cooperation with approximately 25 state departments of agriculture. The up-to-the-minute reports collected and disseminated by professional market reporters are intended to provide both buyers and sellers with the information necessary for making intelligent, informed marketing decisions, thus putting everyone in the marketing system in an equal bargaining position. AMS will collect information using market new reports.

Need and Use of the Information:

AMS will collect information on various aspects of the grain and feed industry in determining available supplies and current pricing. Industry traders use market news information to make marketing decisions on when and where to buy and sell. In addition, the reports are used by other Government agencies to evaluate market conditions and calculate price levels used for the Farmer-owned Reserve Program. The reports must be collected and disseminated by an impartial third party. Since the Government is a large holder of grain, some type of system would have to be established to monitor the collection and reporting data.

In addition, USDA and the Administrator of EPA are required under Section 1491(f) of the FACT Act to survey the records and develop and maintain a data base so USDA and the Administrator of EPA can prepare and publish annual pesticide use reports, copies of which must be transmitted to Congress. OMB Control Number: 0581-0167.

Summary of Collection: Agricultural Marketing Agreement Act of 1937 (AMAA), as amended (7 U.S.C. 601-674) provides that when certain domestically produced commodities are regulated under a Federal marketing order, imports of the commodity must meet the same or comparable requirements. Import regulations apply only during those periods when domestic marketing order regulations are in effect. No person may import products for processing or other exempt purposes unless an executed Importers Exempt Commodity Form (FV-6) accompanies the shipment. Title: Laboratory Approval Programs.

OMB Control Number: 0581-0251.

Summary of Collection: The Agricultural Marketing Act (AMA) of 1946, as amended, provides analytical testing services that facilitate marketing and allow products to obtain grade designations or meet marketing or quality standards. Pursuant to this authority, AMS develops and maintains laboratory certification verification and approval programs as needed by the agricultural industry, to support domestic and international marketing of U.S. products. To ensure that a laboratory is capable of accurately performing the specified analyses, it

FS adopted the Small Business Timber Sale Set-Aside Program on July 26, 1990. Need and Use of the Information: Under the program, the FS must recompute the shares of timber sales to be set aside for qualifying small businesses every five years based on the actual volume of saw timber purchased by small businesses. Recomputation of shares must occur if there is a change in manufacturing capability, if the purchaser size class changes, or if certain purchaser(s) discontinue operations. The appeal information is collected in writing and is possible, in most locations to be sent via e-mail and attached documents to a Forest Service Officer. The collected information is
