i. On September 4, 2019, SCE filed a request for the Commission to expedite the study plan determination process by waiving certain pre-filing study plan development requirements under Part 5 of the Commission's regulations for the existing Bishop Creek Hydroelectric Project. Specifically, SCE requests that the Commission waive the requirement for: A proposed study plan;<sup>1</sup> study plan meetings;<sup>2</sup> and comments on the proposed study plan.<sup>3</sup> SCE states that the waiver would shorten the study plan determination process by four months, and that the expedited process and associated waiver would allow more time for SCE and the stakeholders to collaboratively assess project effects and develop proposed license conditions during the pre-filing period. SCE adds that they have met the intent of these regulations through early collaborative efforts with stakeholders in developing the technical study plans included in its Pre-Application Document filed May 1, 2019.<sup>4</sup>
