

instruments. If a household lists at least one child who is 0 to 17 years old in the screener, they will be directed into a topical instrument immediately after the last screener question. The Web Push + Mail group is further broken down into differing incentive groups. Since the respondent is taken through both the screening and topical instruments at one time, either a \$5 or \$10 cash incentive is mailed along with the initial screening instrument request. Therefore, the Web Push + Mail pretest sample of 8,000 is broken out into two incentive groups of 4,000 households each. Since the Web Push + Mail group does not receive any topical mailing materials, they will not receive any additional incentives.
