

Exchange Rule 1080(l). Customers who are on the contra-side of a trade involving Directed Orders would not be subject to a fee. Also, Complex Orders in index and foreign currency options would not be subject to this assessment, but will continue to be assessed the option transaction charges in effect on the Exchange for simple orders for all participants. The Exchange proposes this amendment in order to create incentives for specialists, SQTs and RSQTs that receive directed order flow to provide liquidity in Complex Orders sent to the Exchange for execution and to encourage directed order flow.

Currently, the Exchange assesses an equity option transaction charge of \$.08 per contract side for specialists and ROTs, including SQTs and RSQTs, on contracts executed electronically as part of a Complex Order in equity options. Market participants other than specialists and ROTs are assessed the applicable current equity option transaction charge. Complex Orders are currently assessed on a net debit/credit basis and are billed on a per contract side basis, regardless of the manner in which the order was delivered to the Exchange.

2. Statutory Basis

The Exchange believes that its proposal to amend its schedule of fees is consistent with Section 6(b) of the Act¹³ in general, and furthers the objectives of Section 6(b)(4) of the Act¹⁴ in particular, in that it is an equitable allocation of reasonable fees and other charges among Exchange members. Specifically, the Exchange believes that this proposal is equitable because it would apply evenly to specialists, SQTs and RSQTs transacting with Complex Orders sent to the Exchange for execution, in that any specialist, SQT or RSQT may act as a Directed Participant and receive the \$.01 per contract fee. Also, the Exchange believes this proposal will increase liquidity in Complex Orders.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act¹⁵ and paragraph (f)(2) of Rule 19b-4¹⁶ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Notice of Proposed Measure and Opportunity for Public Comment Pursuant to Section 421 of the Trade Act of 1974: Certain Passenger Vehicle and Light Truck Tires From the People's Republic of China

AGENCY: Office of the United States
Trade Representative.

ACTION: Notice of proposed measure;
request for comments.

SUMMARY: The United States International Trade Commission (ITC) has determined, pursuant to section 421(b)(1) of the Trade Act of 1974, as amended (the Trade Act) (19 U.S.C. 2451(b)(1)), that certain passenger vehicle and light truck tires¹ from the People's Republic of China (China) are being imported into the United States in such increased quantities or under such conditions as to cause market disruption to the domestic producers of like or directly competitive products. Pursuant to section 421(h)(1) of the Trade Act, the United States Trade Representative (USTR) is publishing notice of proposed restrictions with respect to imports of Chinese tires. USTR invites domestic producers, importers, exporters, and other interested parties to submit their views and evidence on the appropriateness of the proposed restrictions and whether they would be in the public interest. USTR also invites interested parties to participate in a public hearing (if one is requested).

DATES: Requests for USTR to hold a public hearing are due by July 27, 2009. Written comments and requests to testify at any public hearing are also due by July 27, 2009. If USTR receives a request to hold a public hearing, the hearing will be held on August 7, 2009.

ADDRESSES: Requests and written comments should be submitted electronically via the Internet at <http://www.regulations.gov>, docket number USTR–2009–0017. If you are unable to provide on-line submissions, please contact Sandy McKinzy, Legal Technician, at (202) 395–9483 to arrange for an alternative method of transmission.

FOR FURTHER INFORMATION CONTACT: For procedural questions concerning public comments and holding of a public hearing, contact Sandy McKinzy, Legal Technician, USTR, telephone (202) 395–9483. SUPPLEMENTARY INFORMATION:

¹ For purposes of its investigation, the ITC considered certain passenger vehicle and light truck tires to consist of new pneumatic tires, of rubber, from China, of a kind used on motor cars (except racing cars) and on-the-highway light trucks, vans, and sport utility vehicles, provided for in subheadings 4011.10.10, 4011.10.50, 4011.20.10, and 4011.20.50 of the Harmonized Tariff Schedule of the United States (hereafter “Chinese tires”).

1. The ITC Investigation and Section 421

Following receipt of a petition filed on April 20, 2009, by the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (“USW”), the ITC instituted investigation No. TA–421–7, under section 421 of the Trade Act (19 U.S.C. 2451) to determine whether Chinese tires are being imported into the United States in such increased quantities or under such conditions as to cause or threaten to cause market disruption to the domestic producers of like or directly competitive products. The ITC made an affirmative market disruption determination on June 18, 2009, and transmitted a report on its determination, as well as its remedy proposals, to USTR on July 9, 2009. The views of the ITC, including its remedy proposals, and the ITC staff report, are available on the ITC's Web site (<http://www.usitc.gov>) and are contained in USITC Publication 4085 (July 2009), entitled “Certain Passenger Vehicle and Light Truck Tires from China.” A copy of that publication can be obtained from the ITC after July 30, 2009, by e-mailing pubrequest@usitc.gov, calling (202) 205–2000, or writing to the Office of the Secretary, 500 E Street, SW., Washington, DC 20436. Requests may also be faxed to (202) 205–2104.

Following an affirmative determination by the ITC, and pursuant to Section 421(h) of the Trade Act, USTR is required to make a recommendation to the President concerning what action, if any, the President should take to remedy the market disruption. Within 15 days after receiving USTR's recommendation, the President is required to provide import relief unless the President determines that providing such relief is not in the national economic interest of the United States or, in extraordinary cases, that taking action would cause serious harm to the national security of the United States. (Section 421(k).) Before making a recommendation, USTR is required to publish notice of any measures it may propose and provide an opportunity to comment.

2. Proposed Measure and Opportunity for Comment

The ITC recommended that the President impose an additional duty for three years on imports of Chinese tires as follows: 55 percent *ad valorem* in the first year, 45 percent *ad valorem* in the second year, and 35 percent *ad valorem* in the third year. The ITC further recommended that, if applications are
