

exceed \$5,000 would be considered for funding through the FARMS program.

Chapter 40D–2, F.A.C. contains the SWFWMD water use permit regulations that implements the Flow Meter Reimbursement Program. Through its Flow Meter Reimbursement Program, SWFWMD provides cost-share funding for flow meter equipment and installation in the Dover/Plant City Water Use Caution Area. The program provides cost share for flow meter equipment installed on operational withdraw points, inflow lines, catchment facilities, tail water recovery or rainfall capture ponds and storage facilities that have been in existence prior to June 16, 2011.

Flow meters on all withdrawal points are required as a condition of all permits with crops that utilize frost/freeze protection water quantities in the Dover/Plant City Water Use Caution Area to ensure that withdrawals will not cause any unmitigated adverse impacts on the water resources and existing legal users, and that the use continues to be in the public interest.

Chapter 373 of the Florida Statutes enables SWFWMD to implement QWIP. Section 373.206 of the Florida Statute authorizes SWFWMD to implement the Back Plugging Funding Assistance Initiative to identify and plug highly mineralized wells of poor water quality to minimize effects upon an aquifer or water bodies. SWFWMD's QWIP and Back-Plugging Funding Assistance Initiative provide reimbursement for the plugging of groundwater wells that have poor water quality. Properly plugging poor quality groundwater wells enhances water conservation, natural system restoration, and water quality benefits. SWFWMD provides financial assistance to properly plug abandoned and deteriorating artesian wells in order to comply with Chapter 373 of the Florida Statutes. Plugging wells involves filling the abandoned well with cement or bentonite.

The ASF is an option for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new subzones or "usage-driven" FTZ sites for operators/users located within a grantee's "service area" in the context of the FTZ Board's standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally docketed on June 22, 2015.

FTZ 258 was approved by the FTZ Board on October 9, 2003 (Board Order 1287, 68 FR 61395, 10/28/2003). The current zone includes the following
