Announcement of a Public Workshop for Developing Criteria for Accreditation of Certification Bodies Involved in Organic Production and Processing

AGENCY: National Institute of Standards and Technology.

ACTION: Notice of public meeting.

SUMMARY: The National Institute of Standards and Technology (NIST) invites interested parties to attend a two-hour workshop regarding the development of criteria for a sub-program of the National Voluntary Conformity Assessment System Evaluation (NVCASE) Program for recognition of accreditors of certification bodies involved in organic production and processing.

NVCASE program procedures require NIST to consult the public when establishing requirements to be applied in evaluations conducted within the scope of NVCASE programs. There is no fee for the workshop; however, all attendees must register in advance with the Workshop Coordinator no later than May 1, 2003. Due to limited space, the interested parties will be registered on a first-come first-served basis.

DATES: The workshop will be held on May 9, 2003, from 9 a.m. to 11 a.m.

ADDRESSES: The workshop will be held at National Institute of Standards and Technology (NIST—North), located at 820 W. Diamond Avenue, Room 152, Gaithersburg, Maryland 20878.

FOR FURTHER INFORMATION CONTACT:

Contact Jogindar (Joe) Dhillon via telephone at (301) 975-5521. You may register for the workshop by e-mail at dhillon@nist.gov or by fax at (301) 975-5414. You may also register by U.S. mail addressed to NVCASE Workshop Coordinator, (Attention: Joe Dhillon), NIST, 100 Bureau Drive, Stop 2150, Gaithersburg, Maryland 20899-2150.

SUPPLEMENTARY INFORMATION: In accordance with Title 15 Part 286.2(b) of the Code of Federal Regulations, NIST will establish this program pursuant to a letter received from the International Organic Accreditation Service (IOAS) in which it expressed its interest to seek NIST recognition under the NVCASE program. IOAS is an accreditor of product certifiers for organic production and processing. Further information for IOAS is available at <http://www.ioas.org>. NIST may recognize IOAS and any other prospective candidate who will then accredit certification bodies for organic production and processing. This sub-program would use the norms of International Federation of Organic Agriculture Movements (IFOAM). You may access IFOAM Norms 2002 at <http://www.ifoam.org/standard/index.html>.

Due to heightened security concerns, interested parties who wish to attend the workshop should arrive 30 minutes prior to the beginning of the workshop and should bring two forms of identification.

A copy of NVCASE regulations is available at <http://ts.nist.gov/nvcase>. This program under NVCASE will allow the certification bodies to satisfy the conformity assessment requirements of international Guides/Standards and IFOAM norms.

Dated: March 28, 2003.

Arden Bement,

Director.

Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222-226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see

Authority

Section 9 of the ESA and Federal regulations prohibit the "taking" of a species listed as endangered or threatened. The term take under the ESA means harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct (16 U.S.C. 1532(19)). Under limited circumstances, NMFS may issue permits to take listed species, such as scientific research and enhancement permits issued under Section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et. seq.*) and Federal regulations found at 50 CFR 222.308. NMFS issues permits based on findings that such permits: (1) are applied for in good faith; (2) if granted and exercised would not operate to the disadvantage of the listed species that are the subject of the permit; and (3) are consistent with the purposes and policy of section 2 of the ESA. The authority to take listed species is subject to conditions set forth in the permit.
