

Alternative 2A with the addition of authorization of a linear mountain bike trail on existing trails within the Park and on Park partner lands. Alternative 3A was focused on the concept of utilizing areas as interchangeable recreational "trail hubs" that provide the full variety of trail experiences the Park has to offer. Trail hubs would have been placed at existing trailheads and visitor centers where various trail and outdoor recreation activities would have commenced. Alternative 3B was the same as Alternative 3A with the addition of new mountain bike trails consisting of two zones of loop routes and additional facilities. Alternative 4A focused on the destination rather than the journey of the Park's trail network. Park features and attractions were the focus of this Alternative with the trail system serving as the main visitor access to these features. Alternative 4B was the same as Alternative 4A with the addition of new mountain bike trails.

Alternative 5, the selected alternative, combines trail elements from all of the Alternatives and proposed trail facilities. The approach for Alternative 5 will include all common elements and an increase of 37 miles of trails from existing conditions, if fully implemented. This alternative will include a new 10-mile off-road single track bicycle trail, trail facilities including expanded and new parking areas, introduction of launch sites for water trail access, and expansion of hike/bike-in and paddle-in campsites. Alternative 5 will best meet the mission of the Park, its resource conditions and visitor use, and the Plan/EIS purpose, goals and objectives.

Dated: November 25, 2013.

Michael T. Reynolds,

Regional Director, Midwest Region.
