For further information concerning the conduct of this review and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

DATES: *Effective Date:* February 5, 2010.

FOR FURTHER INFORMATION CONTACT:

Mary Messer (202–205–3193), Office of Investigations, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>). The public record for this review may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION: On February 5, 2010, the Commission determined that it should proceed to a full review in the subject five-year review pursuant to section 751(c)(5) of the Act. The Commission found that the domestic interested party group response to its notice of institution (74 FR 56666, November 2, 2009) was adequate and that the respondent interested party group response was inadequate. The Commission also found that other circumstances warranted conducting a full review.¹ A record of the Commissioners' votes, the Commission's statement on adequacy, and any individual Commissioner's statements will be available from the Office of the Secretary and at the Commission's web site.

Authority: This review is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission's rules.

By order of the Commission.

Issued: April 5, 2010.

BILLING CODE 7020–02–P

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

United States Section; Final Environmental Impact Statement, Flood Control Improvements and Partial Levee Relocation, United States Section, International Boundary and Water Commission (USIBWC) Presidio Flood Control Project (FCP), Presidio, TX

AGENCY: United States Section, International Boundary and Water Commission.

ACTION: Notice of Availability for the Record of Decision (ROD).

SUMMARY: This notice is provided in accordance with 40 Code of Federal Regulations (CFR) parts 1500–1508 of the National Environmental Policy Act (NEPA), and USIBWC procedures for implementing NEPA. The USIBWC

anticipates the need to improve existing levees in the Presidio FCP or to relocate portions of the Presidio FCP levees. An Environmental Impact Statement (EIS) was prepared to evaluate potential consequences of each action alternative in reference to flood control improvements. Following the evaluation of each alternative in the EIS, the USBWC selected Alternative 2 (rehabilitation of existing levee to provide 25-year flood protection) as the preferred alternative, and will use the ETS as a guide in developing construction plans.

FOR FURTHER INFORMATION CONTACT: Mr. Daniel Borunda, Acting Division Chief, Environmental Management Division, USBWC, 4171 North Mesa Street, C-100, El Paso, Texas 79902 or e-mail: daniel.borunda@ibwc.gov.

SUPPLEMENTARY INFORMATION: The Presidio FCP lies within the Presidio-Ojinaga Valley, in southern Presidio County, Texas. It extends approximately 13.1 river miles along the Rio Grande Texas-Mexico border. The length of the levee system in the United States (north levee of the Presidio FCP) is approximately 15.3 miles, and includes the downstream section of Cibolo Creek, a tributary of the Rio Grande north of the City of Presidio.

During September 2008, the Presidio FCP experienced severe flooding conditions due to water releases from the Luis Leon Reservoir on Rio Conchos in Mexico. The flooding caused substantial damage to the Presidio FCP, including levee breaches, overtopping, piping/sand boils, under-seepage, and severe surface and slope erosion. The flooding also potentially compromised the integrity of the levee foundation within several levee segments, primarily at locations of old river meanders. Emergency responses during the flooding event included filling over 25,000 sand bags and placing the bags on the existing levee to add support, and using Department of Defense helicopters to fill bridge openings with larger sand bags in existing railroad right-of-ways to create secondary levees. The sandbags and secondary levees prevented the City of Presidio from experiencing more extensive flooding.

In response to the September 2008 flooding damage, the USBWC developed engineering alternatives for long-term improvement of the Presidio FCP flood containment capacity. The EIS evaluates a No Action Alternative and six Action Alternatives for levee rehabilitation or relocation that would allow USBWC to minimize potential environmental impacts and fulfill the project goal of flood protection. A Draft

EIS was released for a 45-day public review period on November 24, 2009. Oral comments were also received from during a public hearing held in the City of Presidio, Texas on December 10, 2009. The Environmental Protection Agency Notice of Availability of the Final PEIS was published in the **Federal Register** on February 26, 2010 for a 30-day wait period.

Finding: Based on engineering, economic, and environmental considerations, the USBWC has selected Alternative 2 (repair and raise the levee to provide 25-year flood protection) as the preferred option for implementation. Because of the damage to the existing levee during the September 2008 flooding (including severe erosion, levee breaches, and levee under-seepage), the existing levee is insufficient to contain a 25-year design flood. Therefore, under Alternative 2, the existing levee would be repaired, and sections of the existing levee would be raised, as needed, to provide the 25-year design flood protection. This would improve the functionality of the existing levee and provide protection to the City of Presidio and adjacent agricultural areas from a 25-year design flood.

Availability: Copies of the Record of Decision may be obtained by request at the above address. Electronic copies may also be obtained from the USBWC Home Page at: <http://www.ibwc.gov>.

Dated: March 31, 2010.

Steven M. Fitten,
General Counsel.

BILLING CODE 7010-01-M

DEPARTMENT OF JUSTICE

Notice of Proposed Consent Decree Under the Clean Air Act

Notice is hereby given that on March 31, 2010, two proposed Consent Decrees were lodged. *United States et al. v. Shell Chemical LP*, Civil Action No. 4:10-cv-01042, was lodged with the United States District Court for the Southern District of Texas. *United States v. Shell Chemical Yabucoa, Inc.*, Civil Action No. 3:10-cv-1268, was lodged with the United States District Court for the District of Puerto Rico.

The Consent Decrees in these Clean Air Act enforcement actions against Shell Chemical LP and Shell Chemical Yabucoa, Inc. (collectively "Shell") resolve allegations by the Environmental Protection Agency, asserted in complaints filed together with the Consent Decrees, under Section

113(b) of the Clean Air Act, 42 U.S.C. 7413(b), for alleged environmental violations at Shell Chemical LP's petroleum refineries in Saraland, Alabama and St. Rose, Louisiana, and at Shell Chemical Yabucoa, Inc.'s petroleum refinery in Yabucoa, Puerto Rico. The proposed Consent Decree in the Shell Chemical LP matter also resolves separate but related state law claims brought by co-plaintiffs Alabama and Louisiana.

These are two of numerous national settlements reached as part of the EPA's Clean Air Act Petroleum Refinery Initiative. Consistent with the objectives of EPA's national initiative, in addition to the payment of civil penalties, the settlements require Shell to perform injunctive relief to reduce emissions of nitrogen oxides, sulfur dioxide, volatile organic compounds, and benzene.

The Department of Justice will receive comments relating to the proposed Consent Decrees for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O. Box 7611, U.S.

Department of Justice, Washington, DC 20044-7611, and should refer to the matters as *United States et al. v. Shell Chemical LP*, DOJ Ref. No. 90-5-2-1-08703 and/or *United States v. Shell Chemical Yabucoa, Inc.*, DOJ Ref. No. 90-5-2-1-08703/1.

Both proposed Consent Decrees may be examined at the following Regional Offices of the United States

Environmental Protection Agency: Region 2, 290 Broadway, New York, New York 10007-1866; Region 4, Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, GA 30303-8960; and Region 6, 1445 Ross Avenue, Suite 1200, Dallas, Texas 75202. The Consent Decree addressing Shell Chemical Yabucoa, Inc.'s facility in Yabucoa, Puerto Rico may also be examined at the Office of the United States Attorney, Torre Chardon, Suite 1201, 350 Carlos Chardon Avenue, San Juan, Puerto Rico 00918.

During the public comment period, the proposed agreements may also be examined on the following Department of Justice Web site: http://www.usdoj.gov/enrd/Consent_Decrees.html. Copies of the proposed agreements may also be obtained by mail from the Consent Decree Library, P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no.
