SUPPLEMENTARY INFORMATION:**I. Abstract**

The objectives of the National Sea Grant College Program are to increase the understanding, assessments, development, utilization, and conservation of the Nation's ocean, coastal, and Great Lakes resources. It accomplishes these objectives by conducting research, education, and outreach programs.

Grant monies are available for funding activities that help obtain the objectives of the Sea Grant Program. Both single and multi-project grants are awarded, with the latter representing about 80 percent of the total grant program. In addition to the SF-424 and other standard grant application

requirements, three additional forms are required with a grant application. These are the Sea Grant Control Form, used to identify the organizations and personnel who would be involved in the grant; the Project Record Form, which collects summary data on projects; and the Sea Grant Budget, used in place of the SF-424A or SF-424C.

Applications are also required in order to be awarded a Sea Grant Fellowship, including the Dean John A. Knauss Marine Policy Fellowships.

The law (33 U.S.C. 1126) provides for the designation of a public or private institution of higher education, institute, laboratory, or State or local agency as a Sea Grant college or Sea Grant institute. Applications are required for designation of Sea Grant Colleges and Sea Grant Institutes.
