

which FPI has a significant market share is posted at https://www.acq.osd.mil/dpap/policy/policyvault/USA000184-25_DPCAP.pdf.

The statute, as implemented, also requires DoD to—

(1) Include FPI in the solicitation process for these items. A timely offer from FPI must be considered and award procedures must be followed in accordance with existing policy at Federal Acquisition Regulation (FAR) 8.602(a)(4)(ii) through (v);

(2) Continue to conduct acquisitions, in accordance with FAR subpart 8.6, for items from product categories for which FPI does not have a significant market share. FAR 8.602 requires agencies to conduct market research and make a written comparability determination, at the discretion of the contracting officer. Competitive (or fair opportunity) procedures are appropriate if the FPI product is not comparable in terms of price, quality, or time of delivery; and

(3) Modify the published list if DoD subsequently determines that new data requires adding or omitting a product category from the list.

Title: 46 CFR part 565—Controlled Carriers.

OMB Approval Number: 3072-0060 (Expires April 30, 2025).

Abstract: The Shipping Act requires that the Commission monitor the practices of controlled carriers (defined at 46 U.S.C. 40102(9)) to ensure that they do not maintain rates or charges in their tariffs and service contracts that are below a level that is just and reasonable; nor establish, maintain, or enforce unjust or unreasonable classifications, rules, or regulations in those tariffs or service contracts that result or are likely to result in the

carriage or handling of cargo at rates or charges that are below a just and reasonable level, 46 U.S.C. 40701–40706. Part 565, title 46 of the Code of Federal Regulations establishes the method by which the Commission determines whether a particular ocean common carrier is a controlled carrier subject to 46 U.S.C. 40701–40706. When a government acquires a controlling interest in an ocean common carrier, or when a controlled carrier newly enters a United States trade, the Commission’s rules require that such a carrier notify the Commission of these events.

Current Actions: There are no changes to this information collection, and it is being submitted for extension purposes only.

Type of Review: Extension.

Needs and Uses: The Commission uses these notifications in order to effectively discharge its statutory duty to determine whether a particular ocean common carrier is a controlled carrier and therefore subject to the requirements of 46 U.S.C. 40701–40706.

Frequency: The submission of notifications from controlled carriers is not assigned to a specific time frame by the Commission; they are submitted as circumstances warrant. The Commission only requires notification when a majority portion of an ocean common carrier becomes owned or controlled by a foreign government, or when a controlled carrier newly begins operation in any United States trade.

Type of Respondents: Controlled carriers are ocean common carriers that are, or whose operating assets are, directly or indirectly, owned or controlled by a foreign government. The Shipping Act defines “controlled carriers” at 46 U.S.C. 40102(9).

Number of Annual Respondents: The Commission cannot anticipate when a new controlled carrier may enter the United States trade, when ownership or control of a carrier will change so that notification is required, or when a controlled carrier exits the United States trade. Over the past three years, the Commission has received, on average, fewer than one notification per year. However, as the Commission has recently classified several additional carriers as controlled carriers, the total estimated burden is increased.

Estimated Time per Response: The estimated time for each notification is 2 hours.

Total Annual Burden: For purposes of calculating total annual burden, the Commission assumes 12 responses annually. The Commission thus estimates the total annual burden to be

24 hours (12 responses × 2 hours per response).

Secretary.
