14 CFR Part 71

[Docket No. FAA-2005-22021; Airspace Docket No. 04-AAL-06]

Establishment of Class E Airspace; Arctic Village, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects an error in the airspace description contained in a Final Rule that was published in the *Federal Register* on Thursday, November 17, 2005 (70 FR 69646). Airspace Docket No. 04-AAL-06.

DATES: *Effective Date:* 0901 UTC, February 16, 2006.

FOR FURTHER INFORMATION CONTACT: Gary Rolf, AAL-538G, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587; telephone number (907) 271-5898; fax: (907) 271-2850; e-mail: gary.ctr.rolf@faa.gov. Internet address: <http://www.alaska.faa.gov/at>.

SUPPLEMENTARY INFORMATION:

History

Federal Register Document 05-22771, Airspace Docket No. 04-AAL-06, published on Thursday, November 17, 2005 (70 FR 69646), established Class E airspace at Arctic Village, AK. An error was discovered in the airspace description that misidentified the airfield location. This action corrects that error.

Correction to Final Rule

■ Accordingly, pursuant to the authority delegated to me, the airspace description of the Class E airspace published in the *Federal Register*, Thursday, November 17, 2005 (70 FR 69646), (FR Doc 05-22771, page 69646, column 3) is corrected as follows:

§ 71.1 [Corrected]

* * * * *

AAL AK E5 Arctic Village, AK [Corrected]

Arctic Village, AK

(Lat. 68°06'53" N., long. 145°34'46" W.)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of the Arctic Village Airport and within 3 miles each side of the 040° bearing from the Arctic Village airport extending from the 6.4-mile radius to 14.8 miles North of the airport and that airspace extending upward from 1,200 ft. above the surface within a 65-mile radius of the airport.

[Docket No. FAA-2005-22538; Airspace Docket No. 05-AAL-30]

Revision of Class E Airspace; Koliganek, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action revises Class E airspace at Koliganek, AK to provide adequate controlled airspace to contain aircraft executing two new Standard Instrument Approach Procedures (SIAPs). This rule results in revised Class E airspace upward from 700 feet (ft.) and 1,200 ft. above the surface at Koliganek Airport, AK.

DATES: *Effective Date:* 0901 UTC, February 16, 2006.

FOR FURTHER INFORMATION CONTACT: Gary Rolf, AAL-538G, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587; telephone number (907) 271-5898; fax: (907) 271-2850; e-mail: gary.ctr.rolf@faa.gov. Internet address: <http://www.alaska.faa.gov/at>.

SUPPLEMENTARY INFORMATION:

History

On Tuesday, October 25, 2005, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Class E airspace upward from 700 ft. and 1,200 ft. above the surface at Koliganek, AK (70 FR 61583). The action was proposed in order to create Class E airspace sufficient in size to contain aircraft while executing two new SIAPs for the

Koliganek Airport. The new approaches are (1) Area Navigation (Global Positioning System) (RNAV (GPS)) Runway (RWY) 09, original; (2) RNAV (GPS) RWY 27, original. Class E controlled airspace extending upward from 700 ft. and 1,200 ft. above the surface in the Koliganek Airport area is revised by this action. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments have been received; thus the rule is adopted as proposed.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1,200 ft. transition areas are published in paragraph 6005 of FAA Order 7400.9N, *Airspace Designations and Reporting Points*, dated September 1, 2005, and effective September 15, 2005, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 revises Class E airspace at Koliganek, Alaska. This Class E airspace is established to accommodate aircraft executing two new SIAPs, and will be depicted on aeronautical charts for pilot reference. The intended effect of this rule is to provide adequate controlled airspace for Instrument Flight Rule (IFR) operations at Koliganek Airport, Koliganek, Alaska.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle 1, section 106 describes the authority of the FAA Administrator.

Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart 1, section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable airspace. This regulation is within the scope of that authority because it creates Class E airspace sufficient in size to contain aircraft executing instrument procedures for the Koliganek Airport and represents the FAA's continuing effort to safely and efficiently use the navigable airspace.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9N, *Airspace Designations and Reporting Points*, dated September 1, 2005, and effective September 15, 2005, is amended as follows:

* * * * *

Paragraph 6005 Class E airspace extending upward from 700 feet or more above the surface of the earth.

* * * * *

AAL AK E5 Koliganek, AK [Revised]

Koliganek Airport, AK

(Lat. 59°43'36" N., long. 157°5'34" W.)

That airspace extending upward from 700 feet above the surface within a 6.3-mile radius of the Koliganek Airport and that airspace extending upward from 1,200 feet above the surface within a 45-mile radius of the Koliganek airport.

* * * * *

Issued in Anchorage, AK, on Insert December 13, 2005.

Anthony M. Wylie,

Manager, Safety, Area Flight Service Operations.

[Docket No. FAA–2005–22537; Airspace Docket No. 05–AAL–29]

Establishment of Class E Airspace; Tok Junction, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Tok Junction, AK to provide adequate controlled airspace to contain aircraft executing two new Standard Instrument Approach Procedures (SIAPs). This rule results in new Class E airspace upward from 700 feet (ft.) and 1,200 ft. above the surface at Tok Junction Airport, AK.

EFFECTIVE DATE: 0901 UTC, February 16, 2006.

SUPPLEMENTARY INFORMATION:

History

On Tuesday, October 25, 2005, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to establish Class E airspace upward from 700 ft. and 1,200 ft. above the surface at Tok Junction, AK (70 FR 61587). The action was proposed in order to create Class E airspace sufficient in size to contain aircraft while executing two new SIAPs for the Tok Junction Airport. The new approaches are (1) Area Navigation (Global Positioning System) (RNAV (GPS)) Runway (RWY) 07, original; (2) RNAV (GPS) RWY 25, original. Class E controlled airspace extending upward from 700 ft. and 1,200 ft. above the surface in the Tok Junction Airport area is established by this action. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public

comments have been received; thus the rule is adopted as proposed. The Notice of Proposed Rulemaking omitted an exemption to the airspace over Canada. It has been corrected in this document.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1,200 ft. transition areas are published in paragraph 6005 of FAA Order 7400.9N, *Airspace Designations and Reporting Points*, dated September 1, 2005, and effective September 15, 2005, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 establishes Class E airspace at Tok Junction, Alaska. This Class E airspace is established to accommodate aircraft executing two new SIAPs, and will be depicted on aeronautical charts for pilot reference. The intended effect of this rule is to provide adequate controlled airspace for Instrument Flight Rule (IFR) operations at Tok Junction Airport, Tok, Alaska.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle 1, section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart 1, section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable
