

Authority: 14 U.S.C. 503; 31 U.S.C. 9701; 46 U.S.C. 2101, 2103, and 2110; 46 U.S.C. chapter 71; 46 U.S.C. 7502, 7505, 7701, 8906, and 70105; E.O. 10173; DHS Delegation No. 00170.1, Revision No. 01.3. Section 11.107 is also issued under the authority of 44 U.S.C. 3507.

■ 2. Amend § 11.201 by:

- a. Revising the first sentence of paragraph (h)(1) introductory text;
- b. Revising paragraphs (h)(2)(i), (h)(3)(i) and (ii);
- c. Adding paragraphs (h)(3)(iii) and (iv); and
- d. In paragraph (l), after the word “service” and before the words “and examination” adding the text “, training”.

The revisions and additions read as follows:

§ 11.201 General requirements for national and STCW officer endorsements.

* * * * *

(h) * * *

(1) Applicants for an original officer endorsement in the following categories must present a certificate of completion from a firefighting course of instruction relevant to the endorsement being sought that has been approved by the Coast Guard. * * *

(2) * * *

(i) All national officer endorsements as master or mate on seagoing vessels of 200 GRT or more.

* * * * *

(3) * * *

(i) All officer endorsements as master on vessels of less than 500 GT in ocean service.

(ii) All officer endorsements for master or mate (pilot) of towing vessels for service on near-coastal waters, except apprentice mate (steersman) of towing vessels.

(iii) All officer endorsements for master or mate (pilot) of towing vessels for service on Great Lakes, except apprentice mate (steersman) of towing vessels.

(iv) All officer endorsements as master or mate (pilot) of towing vessels for service on inland waters or Western Rivers, except apprentice mate (steersman) of towing vessels.

(A) The Coast Guard will accept a Coast Guard-approved modified basic firefighting course, which is the basic firefighting training described in paragraph (h)(3) of this section modified to only cover the equipment, fire prevention procedures, and firefighting operations required on towing vessels on inland waters or Western Rivers routes required in 46 CFR parts 140 and 142. A mariner who completes this modified basic firefighting course will be issued an endorsement that is

restricted to inland waters or Western Rivers.

(B) To increase in scope to Great Lakes, near-coastal or oceans, the applicant will be required to complete the firefighting course appropriate to the route sought.

50 CFR Part 665

[RTID 0648–XD391]

Pacific Island Fisheries; 2023 U.S. Territorial Longline Bigeye Tuna Catch Limits for the Commonwealth of the Northern Mariana Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Announcement of a valid specified fishing agreement.

SUMMARY: NMFS announces a valid specified fishing agreement that allocates up to 1,500 metric tons (t) of the 2023 bigeye tuna limit for the Commonwealth of the Northern Mariana Islands (CNMI) to U.S. longline fishing vessels. The agreement supports the long-term sustainability of fishery resources of the U.S. Pacific Islands, and fisheries development in the CNMI.

DATES: The specified fishing agreement was valid as of February 2, 2023. The start date for attributing 2023 bigeye tuna catch to the CNMI is October 8, 2023.

ADDRESSES: The Fishery Ecosystem Plan for Pelagic Fisheries of the Western Pacific (FEP) describes specified fishing agreements and is available from the Western Pacific Fishery Management Council (Council), 1164 Bishop St., Suite 1400, Honolulu, HI 96813, telephone 808–522–8220, fax 808–522–8226, or <https://www.wpcouncil.org>.

NMFS prepared environmental analyses that describe the potential impacts on the human environment that would result from the action. The analyses, identified by NOAA–NMFS–2022–0117, are available from [*NMFS-2022-0117*, or from Sarah Malloy, Acting Regional Administrator, NMFS Pacific Islands Region \(PIR\), 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818.](https://www.regulations.gov/docket/NOAA-</p>

FOR FURTHER INFORMATION CONTACT:

Keith Kamikawa, NMFS PIR Sustainable Fisheries, 808–725–5177.

SUPPLEMENTARY INFORMATION: In a final rule published on June 15, 2023, NMFS specified a 2023 limit of 2,000 t of longline-caught bigeye tuna for each of the U.S. Pacific Island territories of American Samoa, Guam, and the CNMI (88 FR 39201). NMFS allows each territory to allocate up to 1,500 t of the 2,000 t limit to U.S. longline fishing vessels identified in a valid specified fishing agreement, but the overall allocation limit among all territories may not exceed 3,000 t.

On September 18, 2023, NMFS received from the Council, through its Executive Director, a specified fishing agreement between the CNMI and the Hawaii Longline Association (HLA) allocating 1,500 t of CNMI’s 2,000 t bigeye tuna limit to U.S. fishing vessels identified in the agreement for 2023. The Council’s Executive Director advised that the agreement is consistent with the FEP and its implementing regulations. On September 26, 2023, NMFS reviewed the agreement and determined that it is consistent with the FEP, implementing regulations, the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable laws.

In accordance with 50 CFR 300.224(d) and 50 CFR 665.819(c)(9), vessels in the agreement may retain and land bigeye tuna in the western and central Pacific Ocean under the CNMI attribution specified in the fishing agreement. Based on logbook data submitted by U.S. longline vessels in the WCPFC Convention Area, NMFS forecasts that the U.S. longline fishery will reach the U.S. bigeye tuna limit of 3,554 t by October 15, 2023. Regulations at 665.819(c)(9)(i) directs NMFS to begin attributing catch to the applicable U.S. territory starting seven days before the date NMFS forecasts the U.S. limit to be reached, or upon the effective date of the agreement, whichever is later. Therefore, on October 8, 2023, NMFS will begin attributing bigeye tuna caught by vessels in the agreement to the CNMI. If NMFS determines that the fishery will reach the overall 2,000 t territorial catch limit or the 1,500 t allocation limit, we will restrict the catch and retention of longline-caught bigeye tuna by vessels in order to not exceed these limits, unless the vessels are included in a subsequent specified

fishing agreement with another U.S. territory.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 28, 2023.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 230306-0065; RTID 0648-XD208]

Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Ocean Perch in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Pacific ocean perch in the Central Aleutian district (CAI) of the Bering Sea and Aleutian Islands management area (BSAI) by vessels participating in the BSAI trawl limited access sector fishery. This action is necessary to prevent exceeding the 2023 total allowable catch (TAC) of Pacific ocean perch in the CAI allocated to vessels participating in the BSAI trawl limited access sector fishery.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), September 28, 2023, through 2400 hrs, A.l.t., December 31, 2023.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan (FMP) for Groundfish of the BSAI prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S. vessels in accordance with the BSAI FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2023 TAC of Pacific ocean perch, in the CAI, allocated to vessels participating in the BSAI trawl limited access sector fishery was established as a directed fishing allowance of 498

metric tons by the final 2023 and 2024 harvest specifications for groundfish in the BSAI (88 FR 14926, March 10, 2023) and correction (88 FR 18258, March 28, 2023).

In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific ocean perch in the CAI by vessels participating in the BSAI trawl limited access sector fishery. While this closure is effective, the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion, and would delay the closure of Pacific ocean perch directed fishery in the CAI for vessels participating in the BSAI trawl limited access sector fishery. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of September 27, 2023.

The Assistant Administrator for Fisheries, NOAA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.
