ADDRESSES: Kirsten J. Reinhardt, NAGPRA Coordinator, Bruce Museum Inc., 1 Museum Drive, Greenwich, CT 06830, telephone (203) 413-6770, email kreinhardt@brucemuseum.org.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects under the control of the Bruce Museum Inc., Greenwich, CT. The human remains and associated funerary objects were removed from Goat Rock Dam Site, Lee County, AL.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal

agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by the Bruce Museum professional staff in consultation with representatives of the Alabama-Coushatta Tribe of Texas (previously listed as Alabama-Coushatta Tribes of Texas); Alabama-Quassarte Tribal Town; Coushatta Tribe of Louisiana; and The Muscogee (Creek) Nation (hereafter referred to as "The Consulted Tribes").

History and Description of the Remains

At an unknown date, human remains representing, at minimum, one individual were removed from Lee County, AL. The human remains, together with associated funerary objects, were donated to the Bruce Museum in April 1956, by sisters Elizabeth Barton and Edith Hoisington, who were active in the Ernest Thompson Seton Woodcraft Indian organization. Based on museum records, the site from which the human remains and objects were collected may reasonably be located on the west bank of the Chattahoochee River, near the outlet of Soap Creek, and in the vicinity of the Goat Rock Dam. Exhibition labels and accession cards read: "From a burial uncovered in the excavations of the Goat River (sic) Dam in Alabama." Goat Rock Dam, located on the Chattahoochee River, was completed in 1912, and created Goat Rock Lake. The caption on an undated photograph associated with this collection reads, "The Creek at Indian Mound, Alabama, where the Cranium and pieces of pottery were found," and in the background of the photo, the dam is visible. *Tchuko 'Lako*, a Lower Creek town on the Chattahoochee River settled by Okfuskee Indians, may reasonably be identified with a mound and village site located near the mouth of the Waucooche Creek, just north of Goat Rock Dam. The Okfuskee, a Muscogee tribe, formed part of the former Creek (Muscogee) Confederacy in Alabama prior to their removal to the Indian Territory during the 1830s.

The human remains were determined to be Native American by Connecticut State Archaeologist, Nicholas Bellantoni, who performed a skeletal and dentition analysis on October 25, 1995, together with Ed Sarabia, Tlingit, Indian Affairs Coordinator, Connecticut Commission on Indian Affairs. The human remains are comprised of one
