

competitions under the TA&D program until the Department has considered changes being made to the Elementary and Secondary Education Act (ESEA) during the process of reauthorizing that Act and the Department has developed a coordinated strategy for the provision of technical assistance that is designed to help States, local educational agencies (LEAs), and schools effectively implement key provisions of the ESEA and IDEA and improve educational results for all students. We also have concluded that it would be contrary to the public interest to have a lapse in the provision of technical assistance provided under the TA&D program pending the reauthorization of ESEA. For these reasons, the Secretary proposes to waive the requirements in 34 CFR 75.250, which prohibit project periods exceeding five years, and the requirements in 34 CFR 75.261(a) and (c), which limit the extension of a project period if the extension involves the obligation of additional Federal funds, and issue a continuation award in the amount of \$1,000,000 to the University of Minnesota (H326G050007) for an additional twelve-month period.

Waiving these regulations and issuing this continuation award would ensure that continued technical assistance is available to assist States with developing and implementing appropriate assessments of students with disabilities, as well as emerging issues related to the inclusion of children with disabilities in assessments, as the Department works on reauthorization of the ESEA and designs IDEA technical assistance competitions that are coordinated and aligned with the Department's technical assistance priorities.

During the next fiscal year, NCEO would (1) provide, upon request, technical assistance to States regarding the inclusion of students with disabilities as they develop new academic assessments, including assessments that consortia of States may develop under the Race to the Top Assessment Program, and assessments associated with other Federal laws (e.g., the ESEA and IDEA); (2) develop and implement national and regional activities to ensure that students with disabilities are included in and benefit from emerging approaches to assessment (e.g., supporting communities of practice and convening national forums); (3) continue, update, and expand analyses of State SPP/APR assessment data; (4) collect, analyze, synthesize, and disseminate relevant information related to the assessment of students with disabilities, as appropriate; and (5) serve as a national

resource for policymakers, administrators, teachers, advocates, and parents on the assessment of students with disabilities.

Regulatory Flexibility Act Certification

The Secretary certifies that the proposed extension of project period and waiver would not have a significant economic impact on a substantial number of small entities. The only entity that would be affected is NCEO.

Paperwork Reduction Act of 1995

This proposed extension of project period and waiver does not contain any information collection requirements.
