AGENCY: Rural Development, USDA.

ACTION: Notice.

SUMMARY: The Secretary of Agriculture approved the Transition Plan to privatize the National Sheep Industry Improvement Center. The American Sheep and Goat Center, a Utah non-profit corporation, became the successor to the National Sheep Industry Improvement Center on October 1, 2006.

DATES: Privatization was effective Midnight, September 30, 2006.

FOR FURTHER INFORMATION CONTACT: Thomas C. Dorr, Under Secretary, USDA Rural Development, Room 205-W, Mail Stop 0107, 1400 Independence Avenue SW., Washington, DC 20250-0107, telephone: 202-720-4581, TTY: 800-877-8339 (Federal Information Relay Service).

SUPPLEMENTARY INFORMATION:

Background

Section 375 of the Consolidated Farm and Rural Development Act, 7 U.S.C. 2008j, created the National Sheep Industry Improvement Center (NSIIC) to strengthen the infrastructure of the sheep and goat industry. The NSIIC provided loans and grants for business ventures where normal commercial credit or funding was not available. Section 375(j) of the Farm Bill legislation required the privatization of the NSIIC to occur on the earlier of its receiving a certain level of Federal funding or September 30, 2006. The legislation required a transition plan, to be approved by the Secretary of Agriculture, that provides for a private successor entity that would have the same purposes and be able to continue the activities of the NSIIC. The Secretary of Agriculture has approved a privatization plan that was triggered by the September 30, 2006 deadline. The NSIIC ceased operations on September 30, 2006. The American Sheep and Goat Center became the successor private organization on October 1, 2006. All assets and liabilities of the NSIIC have now been transferred to the private American Sheep and Goat Center. The transition plan is completed as of May 23, 2007.

Dated: May 16, 2007.

Douglas Faulkner,

Acting Under Secretary, Rural Development.

SUPPLEMENTARY INFORMATION:

Title: Bees and Related Articles.

OMB Number: 0579-0207.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Honeybee Act (7 U.S.C. 281-286), the Secretary is authorized to prohibit or restrict the importation of honeybees and honeybee semen to prevent the introduction into the United States of diseases and

parasites harmful to honeybees and of undesirable species such as the African honeybee. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS).

Further, the Plant Protection Act (PPA) (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to prohibit or restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As with the Honeybee Act, APHIS has delegated authority for the PPA.

The establishment of certain bee diseases, parasites, or undesirable species and subspecies of honeybees in the United States could cause substantial reductions in pollination by bees. These reductions could cause serious damage to crops and other plants and result in substantial financial losses to American agriculture.

Regulations for the importation of honeybees and honeybee semen and regulations to prevent the introduction of exotic bee diseases and parasites through the importation of bees other than honeybees, certain beekeeping products, and used beekeeping equipment are contained in 7 CFR part 322, "Bees, Beekeeping Byproducts, and Beekeeping Equipment." These regulations require the use of certain information collection activities, including: An application for permit, appeals for denial of permit application and cancellation of permit, request for risk assessment, inspection report of containment facilities, request for release of containment, transit documentation, export certificate, notice of arrival, packaging and labeling, and recordkeeping by containment facilities.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and
