Farm Service Agency

Title: Debt Settlement Policies and Procedures.

OMB Control Number: 0560-0146.

Summary of Collection: The Federal Claims Collection Standards provides at 4 CFR 102, that whenever feasible, debts owed to the United States should be collected in full in one lump sum. The Debt Collection Improvement Act (DCIA) of 1996 further emphasizes, as one of its goals, to maximize collections of delinquent debt owed to the Government, by ensuring quick action is taken to enforce recovery of debts and the use of all appropriate collection tools, while ensuring that the public is fully informed of the Federal Government's debt collection policies and the debtors are fully cognizant of their financial obligations to repay amounts owed to the Federal Government. Provisions under the Federal Claims Collection Standards and the DCIA allow the debtor upon receiving a notification letter and unable to pay debt owed to the Federal Government in one lump sum, to forward a written request and financial statement to Farm Service Administration (FSA) and Commodity Credit Corporation (CCC) for establishing an agreed repayment plan in the promissory note using form CCC-279, Promissory Note.

Need and Use of the Information: When a debtor requests to enter into an installment agreement to settle their debt, FSA will collect information on the debtor's assets, liabilities, income and expenses. Based on that information a determination can be made on whether the debtor can pay the debt in one lump sum or an installment is necessary. Without this financial information FSA/CCC would have no method of allowing debtor's to pay their debts in installments while still ensuring that the government's financial interests are protected.

SUPPLEMENTARY INFORMATION:

Background

The Idaho Roadless Rule permits the Chief of the Forest Service to modify Idaho Roadless Area boundaries based on changed circumstances or public need after providing public notice and a 45-day public comment period. Pursuant to 36 CFR 294.27(b), the Forest Service proposes to modify the West Mink Roadless Area boundary, located in the Caribou-Targhee National Forest, to allow for the relocation and expansion of the Gibson Jack trailhead.

The existing Gibson Jack trailhead outside of Pocatello, Idaho does not provide adequate parking to accommodate the trail's high level of use. Vehicles must park along the trailhead's access road on adjacent private lands. Expansion of the trailhead

in its existing location is not feasible because of the presence of steep and erodible slopes. The West Mink Roadless Area surrounds the trailhead on three sides.

A flat bench approximately 700 feet west of the existing trailhead and inside the roadless area would provide adequate space to accommodate trailhead parking and for vehicles pulling trailers. Moving the trailhead to this location requires removing 11.4 acres from the roadless area and reconstructing approximately 700 feet of a closed Forest Service road that currently serves as a non-motorized trail.

The Forest Service also proposes to eliminate an 18.8-acre area (or "cherry stem") that has been carved out of the same roadless area. This 18.8-acre area follows a closed Forest Service road which has since been converted to a motorized trail. The Forest Service will add these 18.8 acres to the Roadless Area and remove the previously mentioned 11.4 acres to accommodate the new trailhead, resulting in a net increase of 7.4 acres to the West Mink Roadless Area. The boundary modification would improve the area's manageability for the Caribou-Targhee National Forest. The trailhead relocation would provide improved access and safety for trail users and meet current and projected recreation demand. A map of the proposed modifications is available at: <http://www.fs.usda.gov/detail/roadless/idahoroadlessrule/?cid=stelprdb5382399>.

The Forest Service prepared an environmental assessment to analyze the impacts of the trailhead relocation and roadless area boundary modifications. The Chief of the Forest Service is the responsible official for the boundary modification under the Idaho Roadless Rule. The Forest Supervisor, Caribou-Targhee National Forest, is the responsible official for the trailhead relocation project. The Forest Service will consider public comments on the proposed boundary modifications in coordination with the proposed trailhead relocation. The environmental assessment, finding of no significant impact, and draft decision notice for the trailhead relocation are available at the Caribou-Targhee National Forest Supervisor's Office, 1405 Hollipark Drive, Idaho Falls, ID 83401 or on the Internet at: www.fs.usda.gov/projects/ctnf/landmanagement/projects. The trailhead relocation project is subject to the objection process at 36 CFR part 218 and 219. Information on filing an objection on the trailhead relocation project is available at the Web site above.
