SUPPLEMENTARY INFORMATION: BOEM developed this Final Supplemental EIS for proposed CPA Lease Sales 235, 241, and 247 to consider new information made available since completion of the 2012–2017 WPA/CPA Multisale EIS and WPA 233/CPA 231 Supplemental EIS, and to consider new information on the *Deepwater Horizon* incident. This Final Supplemental EIS updates the baseline conditions and potential environmental effects of oil and natural gas leasing, exploration, development, and production in the CPA. BOEM conducted an extensive search for new information, reviewing scientific journals and available scientific data and information from academic institutions and Federal, State, and local agencies; and interviewing personnel from academic institutions and Federal, State, and local agencies. BOEM has examined the potential impacts of routine activities and accidental events and the proposed lease sales' incremental contribution to the cumulative impacts on environmental and socioeconomic resources. The oil and gas resource estimates and scenario information for this Final Supplemental EIS are presented as a range that would encompass the resources and activities estimated for a proposed CPA lease sale.

In keeping with the Department of the Interior's mission of the protection of natural resources and to limit costs while ensuring availability of the document to the public, BOEM will primarily distribute digital copies of the Final Supplemental EIS on compact discs.
