1. Section 205 of the Federal Power Act (FPA), 16 U.S.C. 824d, and 18 CFR part 35 (2022), require, among other things, that all rates, terms, and conditions for jurisdictional services be filed with the Commission. In Order No. 697 and its progeny,¹ the Commission established certain requirements with which sellers² must comply in order to obtain and retain market-based rate authority.³

In Order No. 860,⁴ the Commission revised certain aspects of the substance and format of the ownership information sellers must submit in order to obtain or retain market-based rate authority. Specifically, Order No. 860 requires that, as part of its market-based rate application or baseline submission, a seller must identify its ultimate

upstream affiliate(s) through a new relational database.⁵

2. In accordance with Order No. 860, as modified by Order No. 860-A, the Order Adopting Revisions to Information Collection,⁶ and the Notice of Extension of Time,⁷ each seller with a market-based rate tariff on file with the Commission was required to make a baseline submission to the market-based rate relational database by February 1, 2022.⁸ Commission staff's review of the baseline submissions to the market-based rate relational database indicates that the sellers with market-based rate authorization listed in the caption of this order failed to file their baseline submissions. This order notifies these sellers that their market-based rate authorizations will be revoked unless they comply with the Commission's requirements within 15 days of the date of issuance of this order.⁹

Such sellers are directed to make a filing with the Commission, within 15 days of the date of issuance of this order, to identify themselves and provide details about their prior submissions to establish that they

General information about the SAB, as well as any updates concerning the meetings announced in this notice, can be found on the SAB website at <https://sab.epa.gov>.

SUPPLEMENTARY INFORMATION:

Background: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the EPA Administrator on the scientific and technical basis for agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the SAB BenMAP and Benefits Methods Panel will hold two public meetings to discuss their draft report reviewing the BenMAP model and EPA's Technical Support Document entitled *Estimating PM_{2.5}- and Ozone-Attributable Health Benefits (2023)*.

This web page will have a link to panel's draft report, the BenMAP model, the BenMAP User's Manual, the Technical Support Document (cited above), and the Agency Charge Questions.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process

for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee's charge or meeting materials. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for the SAB to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should follow the instruction below to submit comments.

Oral Statements: In general, individuals or groups requesting an oral presentation at a meeting conducted by video will be limited to three minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Persons interested in providing oral statements should contact the DFO, in writing (preferably via email) at the contact information noted above by May 9, 2023, to be placed on the list of registered speakers.

Written Statements: Written statements will be accepted throughout the advisory process; however, for timely consideration by SAB members, statements should be submitted to the DFO by May 9, 2023, for consideration at the May 16 meeting. Written statements should be supplied to the DFO at the contact information above via email. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without the explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact the DFO, at the contact information noted above, preferably at least ten days prior to the meeting, to give the EPA as much time as possible to process your request.

Meeting cancellation: The June 15, 2023, meeting may be cancelled if the Panel concludes its business on May 16, 2023. If the June 15, 2023, meeting is cancelled, notice will be provided
