**FOR FURTHER INFORMATION CONTACT:** Amy Hapeman or Courtney Smith, (301) 427-8401.

**SUPPLEMENTARY INFORMATION:** The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

On September 22, 2014 notice (79 FR 56573) was published that the applicant requests a five-year research permit to conduct research on sea turtles bycaught in three longline fisheries in the Pacific Ocean around Hawaii and American Samoa to assess sea turtle post-hooking survival, movements, and ecology in pelagic habitats. NMFS is currently processing this request. The applicant is requesting to revise the number of turtles that could be taken for research in the Hawaii deep-set longline fishery. Each species' take numbers would be reduced except for leatherback sea turtles which would increase from 13 to 24 turtles annually. This change is needed to keep the requested research take activities consistent with a new 2014 Biological Opinion which changed the number of sea turtles that may be incidental bycaught in this commercial fishery. All other aspects of the application would remain the same.
