

optimal health and well-being of low-income individuals through improved nutrition and well-designed nutrition education efforts within the Supplemental Nutrition Assistance Program (SNAP). Under Section 17 of the Food and Nutrition Act of 2008 (7 U.S.C. 2026) the Secretary may undertake research that will help improve the administration and effectiveness of the SNAP. The nutrition assistance programs are a critical component to attaining FNS' goals. FNS defines SNAP-Education (SNAP-Ed) activities as those designed to increase the likelihood of healthy food choices by SNAP recipients and those eligible for but who are currently not participating in the program. SNAP has a significant stake in ensuring that nutrition education works to meet these goals. The proposed study titled "Evaluation of SNAP Education Practices, Wave II," entails the evaluation of three additional model projects and represents an expansion of the ongoing FNS Wave I study.

Need and Use of the Information: FNS will use the collected information to (1) determine which, if any, of the three demonstration projects can serve as good examples of SNAP-Ed delivery that meet the previously described FNS criteria; (2) identify lessons learned in terms of the design, planning, and implementation process and provide recommendations to FNS on how these interventions could be improved to potentially enhance outcomes; and (3) determine which, if any, of the demonstration project-led assessments provide methodologically robust yet logistically practical examples of project-level SNAP-Ed evaluation efforts. If this data collection was not conducted or conducted less frequently, FNS will not be able to determine or improve the administration or effectiveness of SNAP.

Description of Respondents: Individuals or households; State, Local or Tribal Government.

Number of Respondents: 4,717.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 2,133.
