SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Cognitive and Psychological Research information collection. The BLS Behavioral Science Research Center (BSRC) conducts psychological research focusing on the design and execution of the data collection process in order to improve the quality of data collected by the Bureau. The BSRC conducts research aimed at improving data collection quality by assessing questionnaire/form management and administration, as well as issues that relate to interviewer training and interaction with respondents during the interview process. BSRC staff work closely with economists and/or program specialists responsible for defining the concepts to be measured by BLS collection programs. This laboratory

research enhances BLS survey data quality. Improvements are made by examining psychological and cognitive aspects of BLS data collection procedures, including questionnaire design, interviewing procedures, collection modalities, and administrative technology. The BLS Authorizing Statute authorizes this information collection. *See* 29 U.S.C. 1 and 2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0141.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on February 28, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 29, 2014 (79 FR 51614).

BILLING CODE 4510-24-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-2015-021]

Office of Presidential Libraries; Disposal of Presidential Records

AGENCY: National Archives and Records Administration (NARA).

ACTION: Presidential Records Act notice of proposed disposal of Reagan and George H.W. Bush administration disaster recovery backup tapes; request for public comment.

SUMMARY: NARA has identified several collections of disaster recovery backup tapes, and subsequently-created preservation copies, from the Ronald Reagan and George H.W. Bush (GHW Bush) administrations, maintained for the Professional/Office Vision software (PROFS), the Sperry/VAX All-in-One (All-in-One), and for systems maintained by the White House Situation Support Staff (WHSSS) and the White House Situation Room (WHSR), as appropriate for disposal under the Presidential Records Act, 44 U.S.C. 2203(g)(3). This notice describes our reasons for determining that further retention of these disaster recovery backup tapes is not warranted. Because the administrations made these backup tapes for disaster recovery purposes, all

required backup restoration projects have taken place, and NARA is preserving the restored records, we have identified no further need to preserve and maintain these backup tapes. Accordingly, we are following a disposal procedure similar to that in General Records Schedule (GRS) 24 for the routine disposal of backup tapes used by Federal agencies.

This notice does not constitute a final agency action, as described in 44 U.S.C. 2203(g)(3), and no Presidential records will be disposed of following this notice. NARA will publish a second notice only after we have considered any comments received following this 45-day notice period. If NARA proceeds with disposal, we will publish a second notice, with a 60-day notice period, that will constitute a final agency action.

DATES: Please submit any comments by March 23, 2015 for NARA's consideration.

ADDRESSES: Comments regarding the proposed disposal of these Presidential records must be sent in writing to Susan K. Donius, by mail to National Archives and Records Administration, Suite 2200; 8601 Adelphi Road; College Park, MD 20740-6001; by fax to 301-837-3199; or by email to beth.fidler@nara.gov.

FOR FURTHER INFORMATION CONTACT: Director of Presidential Libraries Susan K. Donius, by telephone at 301-837-3250; or by email at beth.fidler@nara.gov.

SUPPLEMENTARY INFORMATION: NARA proposes to dispose of 3,071 original disaster recovery backup tapes created during the Reagan and GHW Bush administrations, along with subsequent preservation copies of those media. A Stipulation and Order entered in the case of *Armstrong v. Executive Office of the President*, Civ. No. 89-0142 (D.D.C.), on January 27, 1994, allows NARA to dispose of preserved disaster recovery backup tapes from the Reagan and GHW Bush administrations, provided that NARA issues a public notice in the **Federal Register**. On June 28, 2013, NARA published a **Federal Register** notice proposing the disposal of over 22,000 unclassified backup tapes from the Reagan and GHW Bush administrations that were used to restore emails and related records pursuant to court orders entered in the *Armstrong* case. NARA received no comments concerning that proposed disposal.

Similarly, NARA now proposes to dispose of 3,039 classified backup tapes from the Reagan and GHW Bush administrations that were transferred to
