Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Comment Request

In compliance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer at (240) 276–0361.

Comments are invited on: (a) whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the

information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Treatment Episode Data Set (TEDS) (OMB No. 0930–0335)—Revision

The Center for Behavioral Health Statistics and Quality (CBHSQ) at the Substance Abuse and Mental Health Services Administration (SAMHSA) is requesting an extension with changes to the combined data collection of the Treatment Episode Data Set (TEDS), the Mental Health Client Level Data (MH–CLD), and the Mental Health Treatment Episode Data Set (MH–TEDS) (OMB No. 0930–0335), which expires on December 31, 2024.

TEDS collects episode-level data on clients aged 12 and older receiving substance use treatment services from publicly funded facilities. MH–CLD collects demographic, clinical, and National Outcome Measures data on clients receiving mental health and support services funded or operated by the State Mental Health Agencies (SMHAs). MH–TEDS is an alternative reporting method to MH–CLD. It collects episode-level data on clients receiving mental health treatment services from publicly funded facilities. MH–TEDS data can be converted to MH–CLD format.

Under section 505 of the Public Health Service Act (42 U.S.C. 290aa–4), CBHSQ is authorized to collect annual data on the national incidence and prevalence of the various forms of mental illness and substance abuse. CBHSQ is also authorized to collect data on the number and variety of public and nonprofit private mental health and substance use treatment programs and the number and demographic characteristics of individuals receiving treatment through such programs. In addition, States, receiving fundings from SAMHSA's Community Mental Health Services Block Grant (MHBG) and Substance Use Prevention, Treatment, and Recovery Services Block Grant (SUPTRS BG) (formally known as the Substance Abuse Prevention and Treatment Block Grant (SABG)), utilize TEDS and MH–CLD/MH–TEDS data to meet the block grant reporting mandate and requirement.

SAMHSA is requesting OMB approval of revisions to the TEDS/MH–CLD/MH–
