National Vaccine Injury Compensation Program: Revised Amount of the Average Cost of a Health Insurance Policy

The Health Resources and Services Administration (HRSA) is publishing an updated monetary amount of the average cost of a health insurance policy as it relates to the National Vaccine Injury Compensation Program (VICP).

Section 100.2 of the VICP's implementing regulation (42 CFR Part 100) states that the revised amounts of an average cost of a health insurance policy, as determined by the Secretary, are to be published periodically in a notice in the **Federal Register** and filed with the United States Court of Federal Claims (the Court). This figure is calculated using the most recent Medical Expenditure Panel Survey-Insurance Component (MEPS-IC) data available as the baseline for the average monthly cost of a health insurance policy. This baseline is adjusted by the annual percentage increase/decrease obtained from the most recent annual Kaiser Family Foundation and Health Research and Educational Trust (KFF/HRET) Employer Health Benefits survey or other authoritative source that may be more accurate or appropriate.

In 2012, MEPS-IC, available at www.meps.ahrq.gov, published the annual 2011 average total single premium per enrolled employee at private-sector establishments that provide health insurance. The annual figure published was \$5,222. This figure is divided by 12 months to determine

the cost per month of \$435.17. The \$435.17 shall be increased or decreased by the percentage change reported by the most recent KFF/HRET, available at www.kff.org. The percentage increase was published at 3 percent. By adding this percentage increase, the calculated average monthly cost of a health insurance policy for a 12 month period is \$448.23.

Therefore, the Secretary announces that the revised average cost of a health insurance policy under the VICP is \$448.23 per month. In accordance with § 100.2, the revised amount was effective upon its delivery by the Secretary to the Court. Such notice was delivered to the Court on November 30, 2012.

SUPPLEMENTARY INFORMATION:**I. Abstract**

Under 16 U.S.C. 1 (National Park Service Act Organic Act), we must preserve America's natural wonders unimpaired for future generations, while also making them available for the enjoyment of the visitor. Meeting this mandate requires that we balance preservation with use. Maintaining a good balance requires both information and limits. In accordance with regulations at 36 CFR parts 1–7, 13, 20, and 34, we issue permits for special park uses. Special park uses cover a wide range of activities including, but not limited to, special events, First Amendment activities, grazing and agricultural use, commercial filming, still photography, construction, and vehicle access.

We currently use Forms 10–930 (Application for Special Use Permit), 10–931 (Application for Commercial Filming/Still Photography Permit (short form)), and 10–932 (Application for Commercial Filming/Still Photography Permit (long form)) to collect information for special use permits. In order to reduce paperwork burden on the public, we are proposing two additional forms, which will require less information than the existing forms:

- Form 10–930S (Application for Special Use Permit (short form)). The short form will reduce the burden on applicants for smaller, less complicated activities, such as small picnics, gatherings, weddings, etc.
- Form 10–933 (Application for Vehicle Use). This new form applies specifically to vehicle access, such as off-road, over-sand, or commercial vehicle access. We will only request information specific to the activity eliminating unneeded information.

The information we collect in the special use applications allows park managers to determine if the requested use is consistent with the laws and NPS regulations referenced above and with the public interest. The park manager must also determine that the requested activity will not cause unacceptable impacts to park resources and values.
